Theories of Perception and the Concept of Structure Floyd Henry Allport, 1955 *The Psychology of Perception* D. W. Hamlyn, 2017-03-27 Originally published in 1957 the primary aim of this study was to shed light upon the logical character of the psychology of perception D W Hamlyn begins by delimiting the field of psychological inquiry into perception then gives a detailed account of the types of explanation appropriate in the field He maintains that these explanations have certain important peculiarities which distinguish them from other scientific inquiries In view of the central importance of Gestalt Theory in this field an account is given of its origins and its main features are critically discussed The work should still be of considerable interest to both philosophers and psychologists as well as to all those interested in the relations between the two subjects

Theories of Visual Perception Ian E. Gordon, 2004-09-30 *Theories of Visual Perception* 3rd Edition provides clear critical accounts of several of the major approaches to the challenge of explaining how we see the world It explains why approaches to theories of visual perception differ so widely and places each theory into its historical and philosophical context Coverage ranges from early theories by such influential writers as Helmholtz and the Gestalt School to more recent work in the field of Artificial Intelligence This fully revised and expanded edition contains new material on the Minimum Principle in perception neural networks and cognitive brain imaging
