*Theorizing Masculinities* Harry Brod, Michael Kaufman, 1994-06-13 Drawing together the broad range of theoretical issues posed in the new study of masculinity contributors from diverse backgrounds address in this volume the different disciplinary roots of theories of masculinity sociology psychoanalysis ethnography and inequality studies Subsequent chapters theoretically model many issues central to the study of men power ethnicity feminism homophobia or develop theoretical explanations of some of the institutions most closely identified with men including the military and the men's movement

**Theorizing Masculinities** Harry Brod, Michael Kaufman, 1994 Contributors from diverse backgrounds address the different disciplinary roots of theories of masculinity sociology psychoanalysis ethnography and inequality studies Chapters theoretically model many issues central to the study of men power ethnicity feminism homophobia or develop theoretical explanations of some of the institutions most closely identified with men including the military and the men's movement

**Feminism and Masculinities** Peter F. Murphy, 2004-07-15 This Reader provides an international mixture of the best classic foundational pieces and recent key works that investigate masculinity from a feminist perspective The chapters examine a wide range of topics including gay liberation the men's movement black and working class masculinities homophobia and the Internet

**The Image of Manhood in Early Modern Literature** Andrew P. Williams, 1999-04-30 The numerous and multifaceted ways in which masculinities emerge and are expressed within cultures prompt a broad ranging examination and reconsideration of what it means to be a man Within the study of masculinity the early modern period stands between the Renaissance when conceptions of manhood were primarily dominated by chivalric and humanistic traditions and the latter half of the 18th century which marked the beginnings of modern conceptions of masculine identity But rather than a transitional period the early modern era was a key moment in the evolutionary dynamics of masculine representation Political forces such as the Puritan revolution the Restoration and the shift in power from the courtier class to the growing middle class forced a reconsideration of the masculine ideal in light of the experiences of the masses At the same time the emergence of print culture provided a means of transmitting the new masculine ideal and literature of the period reflected the changing notions of masculinity The chapters in this volume explore the various strategies used by early modern writers to represent masculinity Together the expert contributors offer a broad perspective on the social and political dynamics of early modern masculine identity Included are chapters on such writers as Thomas Carew Andrew Marvell Francis Beaumont and John Fletcher John Dryden Daniel Defoe and Samuel Richardson Though incorporating a variety of critical approaches the contributors all explore the inherent anxiety associated with masculinity and its representation The chapters demonstrate how significant literary texts of the period provided not only idealized images of early modern manhood but also contesting ones By focusing on the literary historical and social dynamics which construct cultural perceptions of masculinity this volume ultimately illustrates the literary representation of manhood in the early modern

period to be a dynamic and evolving process which often challenged Western notions of what it means to be a man

**Gendered Peace** Donna Pankhurst, 2008 This volume contributes to the growing literature on women conflict and peacebuilding by focusing on the moments after a peace accord or some other official ending of a conflict often denoted as the post conflict era or the post war era Such moments often herald great hope for holding to account those who committed grave wrongs during the conflict and for a better life in the future For many women both of these hopes are often very quickly shattered in starkly different ways to the hopes of men Such periods are often characterized by violence and insecurities and the official ending of a war often fails to bring freedom from sexual violence for many women Within such a context efforts on the part of women and those made on their behalf to hold to account those who commit crimes against them and to access their rights are difficult to make and are often dangerous and are also often deployed with little effect Gendered Peace explores international contexts and a variety of local ones in which such struggles take place and evaluates their progress The volume highlights the surprising success in the development of international legal advances for women but contrasts this with the actual experience of women in cases from Sierra Leone Rwanda South Africa Afghanistan Bangladesh East Timor Peru Central America and the Balkans

**The Man Question** Nancy E. Dowd, 2010-09-20 Among the many important tools feminist legal theorists have given scholars is that of anti essentialism all women are not created equal and privilege varies greatly by circumstances particularly that of race and class Yet at the same time feminist legal theory tends to view men through an essentialist lens in which men are created equal The study of masculinities inspired by feminist theory to explore the construction of manhood and masculinity questions the real circumstances of men not in order to deny men's privilege but to explore in particular how privilege is constructed and what price is paid for it In this groundbreaking work feminist legal theorist Nancy E Dowd exhorts readers to apply the anti essentialist model so dominant in feminist jurisprudence to the study of masculinities She demonstrates how men's treatment by the law and society in general varies by race economic position sexuality and other factors She applies these insights to both boys and men examining how masculinities analysis exposes both privilege and subordination She examines men's experience of fatherhood and sexual abuse and boys experience in the contexts of education and juvenile justice Ultimately Dowd calls for a more inclusive feminist theory which by acknowledging the study of masculinities can broaden our understanding of privilege and subordination

Davison, 2007

**Gender and Research: Men's studies, queer theory, polyvocality** Sara Delamont, Paul Atkinson, 2008 For the past thirty years there have been vigorous debates about the roles played by gender sexuality and sexual orientation in research This collection brings together the debates together set them into their historical and theoretical context and deal with the major criticisms and refutations A particular strength of this collection is that it will available a key sources otherwise scattered and hard to obtain Volume I discusses three sub themes the context in which gender became a matter of concern for researchers the context in which feminist methods were developed and the re discovery of the methodological work of well known women such as Jane Addams and Florence Nightingale Volume II looks at research that has been conducted with explicit awareness of gender Volume III focuses on the pioneering work of innovative scholars who argued for feminist methods in the years after 1950 It then goes on to investigate research that defended and debated the formulations of feminist methods Finally volume IV explicitly relates the themes of Queer Theory Subaltern Theory and Polyvocality themes that evolved with feminist methods to those topics showcased in the other three volumes *Seeing Nature Through Gender* Virginia Scharff, 2003 Environmental history has traditionally told the story of Man and Nature Scholars have too frequently overlooked the ways in which their predominantly male subjects have themselves been shaped by gender Seeing Nature through Gender here reintroduces gender as a meaningful category of analysis for environmental history showing how women s actions desires and choices have shaped the world and seeing men as gendered actors as well In thirteen essays that show how gendered ideas have shaped the ways in which people have represented experienced and consumed their world Virginia Scharff and her coauthors explore interactions between gender and environment in history Ranging from colonial borderlands to transnational boundaries from mountaintop to marketplace they focus on historical representations of humans and nature on questions about consumption on environmental politics and on the complex reciprocal relations among human bodies and changing landscapes They also challenge the ecofeminist position by challenging the notion that men and women are essentially different creatures with biologically different destinies Each article shows how a person or group of people in history have understood nature in gendered terms and acted accordingly often with dire consequences for other people and organisms Here are considerations of the ways we study sexuality among birds of William Byrd s masking sexual

encounters in his account of an eighteenth century expedition of how the ecology of fire in a changing built environment has reshaped firefighters own gendered identities Some are playful as in a piece on the evolution of snow bunnies to shred betties Others are dead serious as in a chilling portrait of how endocrine disrupters are reinventing humans animals and water systems from the cellular level out Aiding and adding significantly to the enterprise of environmental history Seeing Nature through Gender bridges gender history and environmental history in unexpected ways to show us how the natural world can remake the gendered patterns we ve engraved on ourselves and on the planet *Alternative Reconfigurations of Masculinity in the Poetry of Leopoldo Maria Panero, Eduardo Haro Ibars and Eduardo Hervás* Alyssa Marie Holan,2005

**The National Rifle Association** Scott Andrew Melzer,2004 *The Ghost of Boccaccio* Stephen Kolsky,2005 This major study looks at the heritage and literary transformation of Giovanni Boccaccio s *De mulieribus claris* in late fifteenth and early sixteenth century Italy The monograph is the first full length study of the new elaborations of women s role and potential that were being developed in the north Italian courts in this period *The Ghost of Boccaccio* presents a sustained textual analysis of a selection of male authored texts It treats these texts as highly specific events in the development of the querelle des femmes or the woman question providing an important and often neglected Italian context for this question By analysing these texts together in one volume this study places them firmly on the scholarly map They represent an extraordinary variety of voices seeking to be heard about the status of women in Renaissance Italy ranging from the most conservative to the truly radical They provide vital perspectives on constructions of women in the Renaissance A number of these texts also represent a crucial moment in the development of intellectual strategies to challenge the dominant gender ideologies of Renaissance and early modern Europe The book will be of interest to scholars and students of Renaissance history and culture Italian studies neo Latin studies and gender studies **Essay Collection** ,2008 **Public & Private Families** Andrew J. Cherlin,2008 Nationally recognized for its sound scholarship and balanced approach and written by one of the leading authorities in the field this text examines the family through two lenses the familiar private family in which we live most of our personal lives and the public family in which we as adults deal with broader societal issues such as the care of the elderly the increase in divorce and childbearing outside of marriage The book looks at intimate personal concerns such as whether to marry as well as societal concerns such as governmental policies that affect families Distinctive chapters Chapter 9 Children and Parents Chapter 10 The Elderly and Their Families and Chapter 14 The Family the State and Social Policy examine issues of great current interest such as income assistance to poor families the effects of out of home childcare and the costs of the Social Security and Medicare programs **Representing Gender in Cultures** Elżbieta H. Oleksy,2004 This book investigates the concepts of gender and representation in an interdisciplinary and comparative perspective from the viewpoint of a variety of European and North American cultural and intellectual traditions It contextualizes recent debates about the relationship between gender spectatorship and social and historical formations The issue of gender and

representation is problematized by the inclusion of discussion on men and masculinities the area of study that today boasts a rich and growing body of work The volume further offers a new approach to various topics for instance positive feminist readings of mainstream Hollywood productions It analyzes visualizations of women as the embodiments of national collective narratives and deals with critiques of the representations of men in print media It also provides discussion of ideologies of gender and representation in the countries of the New Europe The book is an important source for undergraduates and researchers who want to learn more about the ideologies of gender and representation across cultures Journal of the Association for Research on Mothering ,2000
