Miskel,2001 Topics in this volume include theoretical and historical foundations the school as a social system individuals in school culture and climate of school power and politics in school effectiveness and quality of school communicating and a final look at the school as a social system The Postmodern Challenge to the Theory and Practice of Educational Administration Fenwick W. English,2003 Based on nearly a decade of scholarship this is a highly focused book on the implications of postmodernism for the construction and assessment of theory and practice in educational administration Current ideas of practice are deconstructed from the notions of sound research to the use of national standards in the preparation of educational leaders along with ways of examining and resolving the theory practice gap Part One of the book contains chapters dealing with the rise of postmodernism and describes its broad based dissent from a century of thought in the field including a penetrating examination of whether the concept of a field itself is viable Part Two of the book explores the many ramifications of postmodernism to practice beginning with ideas concerning educational research These chapters tackle the tough issues of the efficacy of the Interstate Leaders Licensure Standards ISLLC and the national exam as examples of job deskilling and deprofessionalization in the guise of raising standards of preparation of future educational leaders Other chapters deal with deconstructing the popular managerial ideas contained in Stephen Covey s works and dispute Joe Murphy s call for a new center of gravity in the field as reinforcing the status quo Finally the book tackles the issue of the theory practice gap and indicates that new and progressive theories which anticipate problems of practice are what is required to deal with this persistent issue The book contains many helpful exhibits in understanding the issues concerning theory and practice as well as a glossary of terms most commonly found in postmodern discourse This book is designed for college and university programs engaged in the preparation of educational leaders for elementary secondary schools and college administrative positions *Vocational Education, Its Theory, Administration and Practice* ,1912 **The Teacher's Encyclopaedia of the Theory, Method, Practice, History and Development of Education at Home and Abroad** Arthur Pillans Laurie,1912 *The Use of Theory in Educational Administration* Arthur P.
