**Beyond the Regulation Approach** Bob Jessop, Ngai-Ling Sum, 2006 Every now and then a book comes along that you positively want to be asked to read and review and this is one of them a major work of scholarship in its own right while at the same time a ground clearing exercise for what is to follow This it should be emphasized is a hugely impressive body of work an expansive statement of Jessop s contribution as a major figure within the world of regulation approaches Ray Hudson Economic Geography This book presents a detailed and critical account of the regulation approach in institutional and evolutionary economics Offering both a theoretical commentary and a range of empirical examples it identifies the successes and failures of the regulation approach as an explanatory theory and proposes new guidelines for its further development Although closely identified with heterodox French economists there are several schools of regulation theory and the approach has also

been linked to many topics across the social sciences Bob Jessop and Ngai Ling Sum provide detailed criticisms of the various schools of the regulation approach and their empirical application and have developed new ways of integrating it into a more general critical exploration of contemporary capitalism The authors go on to describe how the regulation approach can be further developed as a progressive research paradigm in political economy Also presented is a detailed philosophical as well as theoretical critique of the regulation approach and its implications for the philosophy of social sciences and questions of historical analysis especially periodization Addressing the implications of the regulation approach for both the capitalist economy and the changing role of the state and governance this book will be of great interest to a wide ranging audience including institutional and evolutionary economists economic and political sociologists and social and political theorists

*Class Struggle and the New Deal* Rhonda F. Levine, 1988 In this reassessment of New Deal policymaking Rhonda Levine argues that the major constraints upon and catalysts for FDR's policies were rooted in class conflict Countering neo Marxist and state centred theories which focus on administrative and bureaucratic structures she contends that too little attention has been paid to the effect of class struggle
