Theory Of Dimensioning:

Theory of Dimensioning Vijay Srinivasan, 2003-09-30 Encompassing a wide range of mathematical concepts this text reference presents a comprehensive theory of dimensioning and parameterizing of geometric models This volume develops a unified and systematic theory of intrinsic and relational dimensioning using the powerful notion of congruence Packed with illustrative examples and exercises it explains how basic geometric knowledge can be used to understand and approach various dimensioning challenges and provides valuable methods for parameterizing geometric models This valuable reference discusses how dimensional constraints are resolved and managed and offers effective techniques to dimension and parameterize solids *A Manual of Engineering Drawing for Students and Draftsmen* Thomas Ewing French, 1924

[Dimension and Recurrence in Hyperbolic Dynamics](#) Luis Barreira, 2008-11-05 The main objective of this book is to give a broad unified introduction to the study of dimension and recurrence in hyperbolic dynamics It includes a discussion of the foundations main results and main techniques in the rich interplay of four main areas of research hyperbolic dynamics dimension theory multifractal analysis and quantitative recurrence It also gives a panorama of several selected topics of current research interest This includes topics on irregular sets variational principles applications to number theory measures of maximal dimension multifractal rigidity and quantitative recurrence The book is directed to researchers as well as graduate students who wish to have a global view of the theory together with a working knowledge of its main techniques It can also be used as a basis for graduate courses in dimension theory of dynamical systems multifractal analysis together with a discussion of several special topics and pointwise dimension and recurrence in hyperbolic dynamics I hope that the book may serve as a fast entry point to this exciting and active field of research and also that it may lead to further developments
