and the Ethical Life Eliseo Vivas,1950 This classic work in the field was originally published by Regnery Gateway in 1983 This is a serious learned and searching exploration of some of the most difficult questions which have ever concerned the human mind It is also toughminded in the sense that it recognizes all the difficulties begs no questions offers no easy solutions and unlike conventional protests against modern scepticism makes no plea for a leap in the dark to an unexamined faith Joseph Wood Krutch from the Introduction **Pragmatism and Objectivity** Sami Pihlström,2017-02-17 Pragmatism and Objectivity illuminates the nature of contemporary pragmatism against the background of Rescher s work resulting in a stronger grasp of the prospects and promises of this philosophical movement The central insight of pragmatism is that we must start from where we find ourselves and deflate metaphysical theories of truth in favor of an account that reflects our actual practices of the concept Pragmatism links truth and rationality to experience success and action While crude versions of pragmatism state that truth is whatever works for a person or a community Nicholas Rescher has been at the forefront of arguing for a more sophisticated pragmatist position According to his position we can illuminate a robust concept of truth by considering its links with inquiry assertion belief and action His brand of pragmatism is objective and organized around truth and inquiry rather than other forms of pragmatism that are more subjective and lenient The contingency and fallibility of

knowledge and belief formation does not mean that our beliefs are simply what our community decides or that truth and objectivity are spurious notions Rescher offers the best chance of understanding how it is that beliefs can be the products of human inquiry yet aim at the truth nonetheless The essays in this volume written by established and up and coming scholars of pragmatism touch on themes related to epistemology philosophy of mind philosophy of science and ethics The Principles of Ethics Borden Parker Bowne,1892 International Journal of Ethics ,1918 Includes section Book reviews *Handbook of Moral Philosophy* Henry Calderwood,1874 The Popular Science Monthly ,1894 **The Philosophy of Brahmaism** Sitanath Tattvabhushan,1909
