Norcross University of Scranton,2002-08-22 This book is the result of the American Psychological Association s Division of Psychotherapy Div 29 Task Force aimed at applying psychological science to the identification and promulgation of effective psychotherapy Many efforts to improve therapy have focused on codifying evidence based treatments but in doing so have left the psychotherapeutic relationship behind Clinical experience and research findings underscore that the therapeutic relationship accounts for as much of the outcome as particular treatments This volume s 25 chapters identify the elements of effective therapy relationships and methods of customizing psychotherapy to each patient *Highly Effective Therapy* Len Sperry,2010 Mental health professionals and accrediting bodies have steadily been embracing competency focused learning and clinical practice In contrast to a skill a competency is a level of sufficiency evaluated against an external standard Learning to be clinically competent involves considerably more than the current emphasis on skill and micro skill training While there are now a small number of books that describe the various clinical competencies of counseling and psychotherapy none of these books focus on how to learn them *Highly Effective Therapy* emphasizes the process of learning these essential competencies It illustrates them in action with evidence based treatment protocols and clinical simulations to foster learning and competency *Highly Effective Therapy* is a hands on book that promotes learning of the 20 competencies needed for effective and successful clinical practice *The Therapeutic Alliance* Jodie Rindt Wagner,1996 *Handbook of Evidence-Based Psychodynamic Psychotherapy* Raymond A. associated with variations in the strength of the therapeutic alliance Therapeutic factors include strength of therapeutic alliance and similarity of client and therapist lifestyle Client factors include demographics symptom severity and client perceptions of the therapist Therapist factors include personality lifestyle theoretical approach and level of experience The extent to which if any variations in these factors affect the strength of the therapeutic alliance will be investigated
