Bethel University. (2013). *Creating APA style annotated bibliographies, 6th edition*. Retrieved from <https://www.bethel.edu/library/research/apa-annobib-sixth.pdf>

This is an excellent resource for creating annotated bibliographies in APA format, 6th edition. It offers guidelines for writing annotations and a sample annotated bibliography.

Bisignani, D., & Brizee, A. (2013, March 10). *Annotated bibliographies*. Retrieved from <https://owl.english.purdue.edu/owl/resource/614/01/>

These authors from Purdue University's Online Writing Lab present a brief definition of an annotated bibliography and a description of the important elements to include in one. They also provide many examples in various formats, each with detailed explanations. This is a good reference for how to develop an "annotation" for any researcher. (Please note: It is not standard APA procedure to include the month and day of publication; however, because this site is continually updated, March 10, 2013, indicates the last date the information was edited.)

Eckstein, D. (2011). Reflections on an 18-year adventure writing for "For Couples" *Family Journal* column: An annotated bibliography. *The Family Journal: Counseling and Therapy for Couples and Families*, 19(2), 204-211. doi:10.1177/1066480711400568

This article illustrates how annotated bibliographies can be used in academic journals. Because it is a longer bibliography, the author chose to organize the references thematically, using subheadings to separate the different subjects covered in the references. All references are set in APA format, making this article a nice example of an annotated bibliography in APA.

The Making of a Therapist Louis Cozolino, 2013-03-11. A paperback edition of the classic guide for new therapists seeing clients for the first time. Veteran therapist and mental health writer Louis Cozolino's classic text contains all of the things he wished someone had told him during the first weeks and months of his clinical training. Now available in paperback, the book includes guidance about working with your clients such as how to cope with silence, handle their direct questions, and get them to talk less and say more. It also focuses on the inner experience of becoming a therapist and ways of thinking and feeling while sitting across from clients. It speaks honestly about not having all the answers and shuttling up and down between your head and your heart and mind and body as struggling clients sit before you. It balances the process of developing therapeutic skills while also taking an inner journey to becoming the professional and person you hope to be. With a new introduction to the paperback edition, this book remains an essential clinical reference. A Test Bank is available for professors using the book as a course text.
