## **Thesaurus Of Orchestral Devices:**

**Thesaurus of Orchestral Devices (Classic Reprint)** Gardner Read,2017-12-11 Excerpt from Thesaurus of Orchestral Devices N 0 one composer has ever exploited all the possibilities of the modern orchestra More than any other phase of music the art of orchestration has depended upon the combined imagination of practising composers everywhere This Thesaurus is a compendium and store house of orchestral experience especially of contemporary writers as deduced from actual works With a minimum of text and a maximum of example the author makes it possible for the music student and all others interested in orchestral craft to examine devices from the most common to the most recondite that may be found in the published scores of a wide variety of composers No composer will ever want to use all the effects listed in this book On the other hand no composer is so universally adept as not to be able to profit from a perusal of the many illustrations exhibiting the ingenuity and coloristic imaginings of his colleagues It is a comment upon the present state of musical achievement in our country that this Thesaurus of Orchestral Devices should have been conceived and executed by an American composer and teacher Both Gardner Read and his publisher deserve our thanks About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

*THESAURUS OF ORCHESTRAL DEVICES* GARDNER. READ,2018 *Thesaurus of Orchestral Devices* Gardner

Read,1953 **Orchestration Theory** James E. Perone,1996-04-30 Presenting detailed bibliographic information on all aspects of orchestration instrumentation and musical arranging with the broadest possible historical and stylistic palette this work includes over 1 200 citations The sources range from treatises dissertations and textbooks to journal articles and are cross referenced and indexed This is the only comprehensive bibliographic reference guide of its kind on the subject of orchestration It will be of value to the music theory teacher undergraduate and graduate students of orchestration and the researcher The book contains chapters devoted to book length treatises a general bibliography of journal articles and books partially related to orchestration a chronological list of orchestration treatises a list of jazz arranging treatises a list of band related treatises a list of treatises dealing with specific instruments or instrumental families and an index This is the first in a series of music theory reference books the author is developing **Sourcebook for Research in Music, Third Edition** Allen Scott,2015-06-01 Since it was first published in 1993 the Sourcebook for Research in Music has become an invaluable resource in musical scholarship The balance between depth of content and brevity of format makes it ideal for use as a textbook for students a reference work for faculty and professional musicians and as an aid for librarians The introductory

chapter includes a comprehensive list of bibliographical terms with definitions bibliographic terms in German French and Italian and the plan of the Library of Congress and the Dewey Decimal music classification systems Integrating helpful commentary to instruct the reader on the scope and usefulness of specific items this updated and expanded edition accounts for the rapid growth in new editions of standard works in fields such as ethnomusicology performance practice women in music popular music education business and music technology These enhancements to its already extensive bibliographies ensures that the Sourcebook will continue to be an indispensable reference for years to come

**Sourcebook for Research in Music** Phillip Crabtree, Donald H. Foster, 1993 This bibliography of bibliographies lists and describes sources from basic references to highly specialized materials Valuable as a classroom text and as a research tool for scholars librarians performers and teachers

**The International Encyclopedia of Music and Musicians** Oscar Thompson, 1975

**Aaron Copland** Marta Robertson, Robin Armstrong, 2003-08-27 Aaron Copland 1900 1990 is generally considered the most popular and well known composer of American art music and yet little scholarly attention has been paid to Copland since the 1950s This volume begins with a portrait of the composer and an evaluation of significant research trends which is intended to fill a void and to suggest directions for further research The guide also provides a section discussing Copland s interdisciplinary interests such as ballet and film work as well as a comprehensive bibliography of writings about Copland and his music

**Gardner Read** Mary A. Dodd, Jayson R. Engquist, 1996-06-21 Drawing on primary documents as well as interviews and letters the authors have created a fascinating portrait of one of America s most distinguished and prolific composers whose creative output spans more than half a century With its well organized carefully annotated and indexed bibliography the book is not only a pleasure to read but a valuable research tool Read s notable accomplishments include an extensive catalog of 150 opus numbers that run the gamut of instrumental combinations and musical genres plus nine scholarly books dealing with various aspects of notation orchestral devices and instrumental techniques The biography describes Read s family background his early years growing up in Evanston Illinois his high school education his years at the Eastman School of Music his Cromwell fellowship to Europe and his marriage to accomplished teacher pianist Margaret Vail Payne Major events are highlighted during his years at St Louis Kansas City Cleveland and finally Boston Interlochen Tanglewood the MacDowell Colony the Huntington Hartford Foundation as well as official visits to Mexico are explored in terms of the role they played in the creative life of the composer A major portion of the biography is devoted to Read s opera *IVillon* Readers will be interested in the completely annotated bibliography which includes a complete listing of works performances reviews discography and literary writings Appendixes include classified lists of instrumentation commissions awards honors positions text sources dedications and manuscript locations
