Tibetan Medicine in the Contemporary World Laurent Pordié, 2012-08-21 The popularity of Tibetan medicine plays a central role in the international market for alternative medicine and has been increasing and extending far beyond its original cultural area becoming a global phenomenon This book analyses Tibetan medicine in the 21st century by considering the contemporary reasons that have led to its diversity and by bringing out the common orientations of this medical system Using case studies that examine of the social political and identity dynamics of Tibetan medicine in Nepal India the PRC Mongolia the UK and the US the contributors to this book answer the following three fundamental questions What are the modalities and issues involved in the social and therapeutic transformations of Tibetan medicine How are national policies and health reforms connected to the processes of contemporary redefinition of this medicine How does Tibetan medicine fit into the present globalized context of the medical world Written by experts in the field from the US France Canada China and the UK this book will be invaluable to students and scholars interested in contemporary medicine Tibetan studies health studies and the anthropology of Asia Winner of the ICAS Colleagues Choice Award 2009 *Unearthing Bon Treasures* Dan Martin, 2001 This unprecedented account of one of the earliest Tibetan treasure revealers also seeks to understand the role social or familial interests and sectarian polemic have played in perpetuating and transforming the textual narratives about him *Women in Tibet* Janet Gyatso, Hanna Havnevik, 2005 Collection of historical literary ethnographical essays about the history Women in traditional Tibet and present situation of women in Tibet Modern Tibetan Women offering data and reflection on certain topics like the lives of individual women Based on texts anthropological data literature newspaper articles fieldwork and oral history **Locating the Medical** Rohan Deb Roy, Guy N.A. Attewell, 2017-11-21 This volume interrogates the foundational categories that have come to define medical science in modern South Asia It seeks to probe issues such as what constitutes the medical in which context and who defines it This is achieved through case studies that range from the nineteenth to twenty first centuries from colonial Bengal and British Burma to present day Andaman Islands and Ladakh By examining the close interactions between political authorities corporeal knowledge and objects of governance in a sustained manner the domains of the medical and the non medical are revealed to be more blurred and porous than apparent This provides us with new perspectives on the co production of medicine and social worlds by actors and agencies in specific times and places *The Rainbow Palace* Tenzin Choedrak, Gilles van Grasdorff, 2000 In 1980 following more than 20 years of torture and suffering as a political prisoner of the Communist Chinese government Dr Tenzin Choedrak left Tibet to live in exile in India and returned to his duties as the Dalai Lama's physician Here he tells of his disturbing experiences **Hostage of Beijing** Gilles van Grasdorff, 1999 IN MAY 1995 SIX YEAR OLD Gendun Chokyi Nyima was officially recognized by the present Dalai Lama as the eleventh incarnation of the Panchen Lama Tibet's second most important spiritual leader A few days later he and his family were removed from their village by the Chinese authorities and

disappeared from public view Shortly after this kidnapping Beijing produced its own Panchen Lama another boy from the same village Both these children are effectively Hostages of Beijing According to Tibetan tradition the Panchen Lama plays a key role in identifying the next incarnation of the Dalai Lama Will Gendun Chokyi Nyima the world s youngest political prisoner be allowed to fulfil this pivotal role Or in a move calculated to to give them control over the spiritual and temporal leadership of Tibet will the Chinese use their puppet Panchen Lama to nominate the next Dalai Lama Drawing on a deep understanding of Tibetan affairs and many years contact with leaders in exile Gilles van Grasdorff gives fresh and illuminating insights into the recent history of Tibet and its ambiguous relationship with China In doing so he helps us to understand why the stability of the region and the future of the Tibetan people is inextricably linked with the future of these two young boys
