Treating Mental Illness:

Treating Mental Illness and Behavior Disorders in Children and Adults With Mental Retardation Anton Doen, Kenneth Day, 2008-08-13 Since the 1970s the development of normalization philosophy and the implementation of community care policies have highlighted the nature and treatment of psychiatric and behavior disorders in people with mental retardation and rekindled the interest of scientists psychiatric practitioners and service providers With these changes has grown a substantial body of new research and information on the phenomenology epidemiology classification and clinical features of mental illness and behavior disorders in mentally retarded persons In response to this growing interest and awareness the editors together with internationally renowned contributors from the United States and Europe have compiled the first comprehensive handbook of the current theory and practice of mental health treatment and care in mentally retarded children and adults Both contemporary and in depth this multidisciplinary multidimensional volume covers all available therapeutic methods including psychopharmacotherapy psychotherapy behavior therapies cognitive therapy and the systems approach for all the main diagnostic disorders in people with mental retardation Parts I and II present an overview of epidemiology and clinical presentation including research trends and therapeutic methods including psychotherapy psychopharmacology behavioral therapies cognitive and social learning treatments and working with families and caregivers Parts III and IV focus on psychotherapeutic interventions such as rational emotive group treatment with dually diagnosed adults pre therapy for persons with mental retardation who are also psychotic and systemic therapy and how to apply these methods to the treatment of specific mental illnesses such as schizophrenia epilepsy and mood and anxiety disorders Parts V and VI discuss how to treat behavior disorders such as aggression self aggression pharmacotherapy and strategic behavioral interventions and self injurious behaviors multimodal contextual approach including group therapy for sex offenders and a pedagogical approach to behavior problems and which treatment methods such as psychodynamically oriented psychotherapy and pharmacotherapy are most effective with children including developmental dynamic relationship therapy with more severely mentally retarded children Parts VII and VIII provide guidance on mental health services and staff training including psychiatric treatment in community care and a model for inpatient services for mentally ill persons with mental retardation and the editors final chapter which draws together all the various therapeutic approaches described in previous chapters to provide a practical framework for an integrative approach Filling a major gap in the literature this indispensable resource for psychiatrists psychologists and educators working with mentally retarded persons is also intended for general practitioners doctors social workers and therapists working in the same or related fields *Normalizing and Treating Mental Illness* Charles E. Williams, Ph.D., 2012-03-23 This book argues that mental illness does not just happen Whereas physical disabilities and developmental disabilities can occur at birth mental illness and personality disorders come about within a complex process of human development involving socialization child rearing and nurturance genetic

predisposition societal norms and environmental aspects as well as intrinsic internal phenomena thought mood attitude taking place in the individual The book advocates for the open and unstigmatized recognition and treatment of emotional psychiatric aberrations It goes even further to advocate for the utilization of every resource possible to alleviate the travails of mental illness The book pleads for tolerance attainment of more knowledge about the subject understanding acceptance objectivity and an impartial unbiased way of thinking in dealing with mental illness as a part of life This book emphasizes that the mind body and spirit are renewed through appropriate therapeutic pharmacological and medical interventions Psychotherapy is a very important part of this process The book suggests that psychotherapy is not just talk but includes verbal release advocacy case management assistance in emotional and social empowerment and reciprocal interchange in an interactive process between the patient and the therapist The use of strengths and resources is an important mechanism in the therapeutic process The most prevalent disorders of depression anxiety bipolar disorder and schizophrenia are presented Childhood disorders of Attention Deficit Hyperactivity Disorder Impulse Control Disorder Oppositional Defiant Disorder Conduct Disorder and Autism are discussed in a chapter on children Dual diagnoses of mental illness and substance abuse are also an area of attention Other topics of focus are religion and religiosity in mental illness the interstitiality of diagnoses symptoms and dynamics in mental illness and the variables of human development in relation to personality and personality disorders Music and its relationship to emotions is briefly mentioned Techniques of intervention including individual therapy group therapy case management advocacy and day treatment are also foci of discussion

The Care and Treatment of Mental Diseases and War Neuroses ("shell Shock") in the British Army Thomas William Salmon,1917 *The Modern Treatment of Nervous and Mental Diseases* William Alanson White,Smith Ely Jelliffe,1913 This volume devoted to the treatment of nervous and mental diseases is designed to meet the needs which the rapid advances in knowledge of neurology and psychiatry have created The nervous system is here regarded as a whole and as inclusive of the mind and it is maintained that disturbances of any and all of its functions mental as well as physical are proper subjects for therapeutics The present work lays emphasis upon the psychical side of life as being worth quite as much consideration as the physical It sets forth doctrines of nervous and mental hygiene reconstructive factors in social organization as applied to human ills and endeavors to present a broad front to the pessimistic nihilism in therapeutics that has been too long current in these fields because the doctor's eyes have been too closely focused on the individual examples and results of human accidents Neurology and psychiatry offer the widest possible opportunities for preventive medicine as well as for therapeutic optimism The program here presented is essentially therapeutic Planned as it has been on a broad scale the more practical issues confronting the clinician have nevertheless been fully met The editors have sacrificed philosophical views for more definite guideposts wherever in the present state of our knowledge such a course seemed wiser
