Trees, Shrubs, and Woody Vines of Northern Florida and Adjacent Georgia and Alabama Robert K. Godfrey,1988 This complete and authoritative work provides identification keys full descriptions and line drawings that make it possible to identify 383 native and naturalized species of trees shrubs and woody vines found in northern Florida and adjacent Georgia and Alabama Casual observers of the lower coastal plain may at first see a landscape dominated by pines Closer observation reveals a great diversity of plants patterns of contrasting vegetation caused by the complex physical and biotic factors at work In this richly vegetated area a rise of only four feet in elevation can bring significant changes in community composition changes comparable perhaps to those occurring on a four thousand foot mountainside The descriptions in this guide are useful not only for identification but also for their help in enhancing the user's knowledge of the plants Each description is followed by information on the habitat in which the species is known to occur the species general location within the area under study and its overall geographic range Whenever possible vegetative characteristics have been used in the keys so that the book is useful beyond the sometimes brief flowering seasons of the species The use of technical terminology has been

minimized in the keys and descriptions and a full glossary is provided Based on thirty years of constant study and firsthand observation Robert K Godfrey s manual is a definitive work on this area s notably diverse woody flora from the common longleaf pine *Pinus palustris* and Jackson brier *Smilax smallii* to locally rarer species such as the fragrant sumac *Rhus aromatica* Spanish bayonet *Yucca gloriosa* and ornamental Chinese tallow tree *Sapium sebiferum* Common Trees of North & Northwest Florida ,1936 *The Ecology of the Trees, Shrubs, and Woody Vines of Northern Florida* Robert W. Simons,2021-07-19 This book is a compendium of ecological information on 244 species of trees shrubs and woody vines found in the northern half of the Florida peninsula and in the Florida panhandle **Native Trees for North Florida** Alan W.
