USMC Phantoms in Combat Lou Drendel,1990-01-01 Rigt illustreret beretning om F 4 Phantom operationer i US Marine Corps under Vietnamkrigen **US Marine Corps F-4 Phantom II Units of the Vietnam War** Peter E. Davies,2012-11-20 A detailed history of the F 4 Phantom II a carrier borne interceptor turned successful ground attack aircraft and the US Marines that flew it **Bildband, pictorial "USMC Phantoms"** ,2008 *Phantom in Combat* Walter J. Boyne,1985 **Striving for Air Superiority** Craig C. Hannah,2002 Annotation Tactical bombing Gen Jimmy Doolittle reportedly observed is breaking the milk bottle Strategic bombing is killing the cow Most nations have historically chosen between building tactical and strategic air forces rarely has a state given equal weight to both The advantages of tactical air power are obvious today as small wars and petty tyrants bedevil us but in a Cold War world split between continental superpowers strategic bombing took precedence with calamitous consequences In the 1960s the U S Air Force lacked the equipment and properly trained pilots to assure air superiority because the Tactical Air Command TAC had become little more than a handmaiden to the Strategic Air Command SAC TAC focused primarily on the interdiction of enemy bombers and virtually ignored its other responsibilities Its aircraft were designed to shoot at large lumbering bombers and not to engage in dog fights with highly maneuverable MiGs Hannah shows how a tactical air force that won a victory in World War II deteriorated into a second rate force flying aging aircraft during the early years of the Cold War recovered briefly over Korea then slid into obsolescence during the 1950s His explanation of why America s fighter aircraft did not work in Vietnam is instructive and unsettling Hannah explains how TAC struggled through the war in Vietnam to emerge in the 1970s as the best tactical air force in the world He side steps politics and inter service rivalries to focus on the nuts and bolts of tactical air power The result is a factual informative account of how an air force first loses its way then finds its mission again
