

ECOLOGICAL PERSPECTIVE

The ecological perspective is a theoretical and practical approach to the social sciences that emphasizes the interactions between an individual and their environment.

DEFINITION

This perspective emphasizes that individuals develop within and are influenced by complex systems of social, cultural, and physical environments. According to Satchell et al. (2021), "...an ecological approach is about the understanding of individual's perceived behavioral opportunities and gives important focus on what the environment might offer an individual in a place" (p. 1).

EXAMPLE

The impact of 'nurture' in child development: A child's upbringing is greatly influenced by their immediate family and caretakers, which can include parenting style, availability of resources, and other family dynamics. Additionally, community resources and social support structures, as well as cultural values and traditions, significantly impact a person's development.

War In Ecological Perspective

Andrew Vayda

War In Ecological Perspective:

War in Ecological Perspective Andrew Vayda, 2012-12-06 This book deals with war in three Oceanian societies More specifically it analyzes the following the process of war in relation to population pressure among New Guinea's Maring people extension and contraction in the headhunting activities of the Iban people of Sarawak during the nineteenth century and the disruption resulting from the introduction of muskets in the warfare of the Maoris of New Zealand In all of the analyses I have viewed war as a process rather than simply as something that either does or does not occur and I have tried to see how the process relates to environmental problems or perturbations actually faced by people The use of such an approach can I believe lead to important understandings about war and more generally about how people respond to environmental problems A goal in this book is to show that this is so Although it is only relatively recently that the significance of viewing war as a process became clear to me my interest in war in relation to environmental and demographic phenomena is of long vintage Preface standing The beginning of the studies resulting in the present book can in fact be said to date back to the mid 1950s when I was in New Zealand to do library research for my Ph D dissertation on Maori warfare

Warfare in Ecological Perspective Andrew Peter Vayda, 1974 *War in Ecological Perspective; Persistence, Change, and Adaptive Processes in Three Oceanic Societies*, 1976 [An Ecological Approach to International Law](#) Prue

Taylor, 2008-01-28 An Ecological Approach to International Law shows that international environmental law is fundamentally flawed and not equipped to meet global challenges The book examines international legal responses to global climate change by analysing key concepts such as the doctrine of state sovereignty the law on state responsibility environmental rights and common heritage of mankind [War in Human Civilization](#) Azar Gat, 2008-03-26 Why do people go to war Is it rooted in

human nature or is it a late cultural invention How does war relate to the other fundamental developments in the history of human civilization And what of war today is it a declining phenomenon or simply changing its shape In this truly global study of war and civilization Azar Gat sets out to find definitive answers to these questions in an attempt to unravel the riddle of war throughout human history from the early hunter gatherers right through to the unconventional terrorism of the twenty first century In the process the book generates an astonishing wealth of original and fascinating insights on all major aspects of humankind's remarkable journey through the ages engaging a wide range of disciplines from anthropology and evolutionary psychology to sociology and political science Written with remarkable verve and clarity and wholly free from jargon it will be of interest to anyone who has ever pondered the puzzle of war [Perspectives in Ecological Theory](#)

Jonathan Roughgarden, Robert M May, Simon A. Levin, 2014-07-14 This volume presents an overview of current accomplishments and future directions in ecological theory The twenty three chapters cover a broad range of important topics from the physiology and behavior of individuals or groups of organisms through population dynamics and community structure to the ecology of ecosystems and the geochemical cycles of the entire biosphere The authors focus on ways in

which theory whether expressed mathematically or verbally can contribute to defining and solving fundamental problems in ecology A second aim is to highlight areas where dialogue between theorists and empiricists is likely to be especially rewarding The authors are R M Anderson C W Clark M L Cody J E Cohen P R Ehrlich M W Feldman M E Gilpin L J Gross M P Hassell H S Horn P Kareiva M A R Koehl S A Levin R M May L D Mueller R V O Neill S W Pacala S L Pimm T M Powell H R Pulliam J Roughgarden W H Schlesinger H H Shugart S M Stanley J H Steele D Tilman J Travis and D L Urban Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Origin of War J. van der Dennen, 1995

Weapons, Warriors and Warfare in Early Egypt Gregory Phillip Gilbert, 2004 This detailed study of warfare in early Egypt is firmly based on the material evidence of weapons discovered on prehistoric and Early Dynastic sites as well as the earliest images of hunting or warfare

Savage Ecology Jairus Victor Grove, 2019-08-16 Jairus Victor Grove contends that we live in a world made by war In *Savage Ecology* he offers an ecological theory of geopolitics that argues that contemporary global crises are better understood when considered within the larger history of international politics Infusing international relations with the theoretical interventions of fields ranging from new materialism to political theory Grove shows how political violence is the principal force behind climate change mass extinction slavery genocide extractive capitalism and

other catastrophes Grove analyzes a variety of subjects from improvised explosive devices and drones to artificial intelligence and brain science to outline how geopolitics is the violent pursuit of a way of living that comes at the expense of others Pointing out that much of the damage being done to the earth and its inhabitants stems from colonialism Grove suggests that the Anthropocene may be better described by the term Eurocene The key to changing the planet s trajectory Grove proposes begins by acknowledging both the earth shaping force of geopolitical violence and the demands apocalypses make for fashioning new ways of living

War and the Environment in the Modern World Lisa M. Brady,2017-04-06

War and the Environment in the Modern World is the first broad scale survey of industrial age warfare from a global environmental perspective Spanning over 150 years and covering nearly every continent this study examines the intricate connections between armed conflict and the natural world Lisa Brady addresses not only the environmental implications of combat but also analyses issues of mobilisation logistics and post war reconstruction using vivid examples from the US Civil War through to the global conflicts of the 20th century Organized thematically the book demonstrates that even with increasing levels of industrialisation and technological sophistication war and nature are inextricably linked Beginning with a definition of modern warfare and how it differs from pre industrial conflict with regard to environmental factors its chapters go on to describe the ways in which nature and culture interact during the various stages of conflict A concluding chapter examines the process of militarisation the ways in which landscapes become products of war even when they have not been sites of battle This balanced and wide ranging examination of modern warfare s environmental history will become a key resource for students of environmental history and military studies
