Lionheart and Barbarossa four great warlords from the medieval era as they waged wars to establish the political and military dominance of Christianity throughout Europe and the Middle East The lives legends and legacies of these leaders are brought together in one exciting collection **Routledge Handbook of Premodern Japanese History** Karl F.

Friday,2017-07-14 Scholarship on premodern Japan has grown spectacularly over the past four decades in both sophistication and volume The new scholarship sees a higher reliance on primary documents a shift away from the history of elites to broader exploration of social structures and a reexamination of many of the key tenets which were once the received wisdom Providing a primarily historiographical review this handbook highlights the recent innovations and major themes that have developed in the study of premodern Japanese history Covering Japanese history to 1600 The Routledge Handbook of Japanese History is an essential reference work for any student and researcher on Japanese Asian and World History

**Japan Emerging** Karl Friday,2018-04-19 Japan Emerging provides a comprehensive survey of Japan from prehistory to the nineteenth century Incorporating the latest scholarship and methodology leading authorities writing specifically for this volume outline and explore the main developments in Japanese life through ancient classical medieval and early modern periods Instead of relying solely on lists of dates and prominent names the authors focus on why and how Japanese political social economic and intellectual life evolved Each part begins with a timeline and a set of guiding questions and issues to help orient readers and enhance continuity Engaging thorough and accessible this is an essential text for all students and scholars of Japanese history Knights Aileen Weintraub,2005 Communications and Power in Medieval Europe Karl Leyser,1994 Collection of 11 articles some of which were previously published **The Medieval Warrior Aristocracy** Andrew Cowell,2007 A major reconsideration of the relationship between warrior aristocrats epics and heroes in medieval culture The process of identity formation during the central Middle Ages 10th 12th centuries among the warrior aristocracy was fundamentally centered on the paired practices of gift giving and violent taking inextricably linked elements of the same basic symbolic economy These performative practices cannot be understood without reference to a concept of the sacred which anchored and governed the performances providing the goal and rationale of social and military action After focussing on anthropological theory social history and chronicles the author turns to the literary persona of the hero as seen in the epic He argues that the hero was specifically a narrative touchstone used for reflection on the nature and limits of aggressive identity formation among the medieval warrior elite the hero can be seen from a theoretical perspective as a supplement to his own society who both perfectly incarnated its values but also in attaining full integrity short circuited the very mechanisms of identity formation and reciprocity which undergirded the society The book shows that the relationship between warriors heroes and their opponents especially Saracens must be understood as a complex tri partite structure not a simple binary opposition in which the identity of each constituent depends on the other two ANDREW COWELL is Associate Professor of the Department of French and Italian and the Department of Linguistics at the University of Colorado
