Teaching Green -- The Elementary Years Tim Grant, Gail Littlejohn, 2005-05-01 A complete resource for teaching green to young people from kindergarten through grade five

Amchitka and the Bomb Dean Kohlhoff, 2002 Amchitka and the Bomb reconstructs thoroughly the decision by the Atomic Energy Commission to use Amchitka Island in the Aleutians as a test site for nuclear missile weaponry utterly disregarding the fact that the island was a wildlife refuge It will be an important contribution to environmental and Alaska studies and to national defense studies Stephen Haycox University of Alaska Anchorage

Red Leviathan Ryan Tucker Jones, 2022-05-30 An authoritative history on how Soviet whalers nearly destroyed endangered whale populations while also contributing to scientific knowledge about them The Soviet Union killed over six hundred thousand whales in the twentieth century many of them illegally and secretly That catch helped bring many whale species to near extinction by the 1970s and the impacts of this loss of life still ripple through today's oceans In this account based on formerly secret Soviet archives and interviews with ex whalers environmental historian Ryan Tucker Jones offers a complete history of the role the Soviet Union played in the whales destruction As other countries especially the United States Great Britain Japan and Norway expanded their pursuit of whales to all corners of the globe Stalin determined that the Soviet Union needed to join the hunt What followed was a spectacularly prodigious and often wasteful destruction of humpback fin sei right and sperm whales in the Antarctic and the North Pacific done in knowing violation of the International Whaling Commission's rules Cold War intrigue encouraged this destruction but as Jones shows there is a more complex history behind this tragic Soviet experiment In the ultimate scientific irony today's cetacean studies benefited from Soviet whaling as Russian scientists made key breakthroughs in understanding whale natural history and behavior And in a final twist Red Leviathan reveals how the Soviet public began turning against their own country's whaling industry working in parallel with Western environmental organizations like Greenpeace to help end industrial whaling not long before the world's whales might have disappeared altogether

Seven Myths of Native American History Paul Jentz, 2018-03-02 Seven Myths of Native American History will provide undergraduates and general readers with a very useful introduction to Native America past and present Jentz identifies the origins and remarkable staying power of these myths at the same time he exposes and dismantles them Colin G Calloway Dartmouth College

Man's Fate and God's Choice Bhimeswara Challa, 2021-06-29 Stagnate as a creepy caterpillar or transform into a beautiful butterfly this path breaking book of a rare genre suggests is the seminal choice before mankind and every one of us In this setting the book raises some fundamental questions What is man's rightful place in the cosmos and his manifest destiny on earth Why are we so self-righteously self-destructive Are we a doomed species Or divine beings struggling to overcome the hubris of the human intellect Is God getting weary of mankind How should we synergize human effort and Divine Grace The book posits that any betterment in human behavior needs a cathartic change at the deepest levels That requires diluting the dominance of the mind and

reawakening the long dormant intelligence of the human heart To meet that challenge we need minimum numbers a critical mass to create self sustained momentum for transformation through consciousness change And every single human of this generation should behave in such a way that he or she is that single person whose transformation could make the decisive species scale difference The book offers a menu of ideas and an agenda of action This book could be itself become an input to mobilize that very critical mass it advocates for human transformation Well planned and cohesively written the book is noteworthy for its delightful blend of information and arguments and reveals the depth of the author s understanding of the human predicament This is a closely argued and thought provoking book The Hindu 13 Sept 2011 This book is a gripping exposition on human nature and self transformation without preference to religion Challa has critically provided a foundational argument for a deeper discussion of philosophical and practical ideals concerning self transformation harmonizing the head and the heart is the way for humans to function as spiritual beings Recommended by the USR The US Review of Books The author reflects upon the crisis of contemporary civilizations and outlines a blueprint for a new world order based on progressive spiritual values and change of human consciousness The strength of this treatise is the sweep of Challa s reach and his treatment of a vastly complex set of issues that bedevil humankind today India International Center Quarterly Summer 2012 As a thinker and erudite scholar the author has made a profound study of the world situation and the moral decadence of man This book deserves to be on the shelves of university college and public libraries Triveni Magazine July Sept 2011 It is difficult to pigeon hole this book as a prophetic discourse a journey into the human mind a guide for human survival a spiritual treatise It is an amalgam of all these and more the volume reaches out to those who are already uneasy about the way we on this earth are progressing The Book Review India June 2013 **The Complete Idiot's Guide to World Mythology** Evans Lansing Smith, Ph.D.,Nathan Robert Brown,2008-07-01 Make no myth take this book is indispensable The Complete Idiot s Guide to World Mythology explores the gods and goddesses heroes and heroines monsters and angels of the myths from every corner of the globe Additionally it explores the parallels between every culture and the striking similarities in mythic figures and the structure action wording and result of the stories themselves Covers Egyptian Celtic Teutonic Norse Japanese Mexican Native American and other myths Features information on The Hero s Journey the cycle of myth according to Jung Campbell and others Appendixes include a glossary of terms and both a general and a subject Index **Proceedings** International Longshoremen's and Warehousemen's Union. Governor General's Award for co-authoring *Occupied Canada* has crossed trails with Natives of all sorts in many circumstances. His adventures as the founder of the Greenpeace movement in Vancouver brought him in frequent contact with sympathetic Natives fighting the same good fight. He worked with the Nimpkish Band Council as a media adviser and was involved in a number of Native protest actions including a spectacular journey to the Caribbean with an unlikely and seasick band of B.C. Natives who managed to intercept the recreated Columbus fleet and extract an official apology from the Spanish government. In this book Hunter provides a look at Native life and especially Native activists that is far from solemn and is consistently informative and irreverently entertaining. **Sanctuary**, 1983 **The Way** Shirley Hill Witt, Stan Steiner, 1972. Consists of material not previously published with many talented Indian writers and poets making their first appearance on the literary scene. OCLC
