Strategy, Psychology, Logistics Chan Sai Hung, Curtis, Chung W.T., Emily, Ho Ho Hin, Oskar, Lam Fung Hoi, Henry, Li YINUO, Derek, Shum Hou Zit, Tang Ming Chung, Alan, Tse Sheung Hei, 2024-08-06 The art of war is an ugly art yet it is ever more pivotal in our turbulent world as we struggle to comprehend the sheer scale of atrocities However people do tend to simplify the conduct of warfare to a mere contest of weaponry and wealth and neglecting initiatives of commanders in the complicated system of warfare Therefore we the History Society hope to explore this missing linkage by providing this valuable platform for studies of various aspects of warfare from tactical doctrines to cultural impacts thereby understanding war as an intrinsic and comprehensive phenomenon throughout human history It is also our hope that by investigating in this perplexing topic can we acknowledge that war is not instigated to deal with the ordeals ahead only but also a cruel portrayal of how human beings endeavour to slaughter each other by all means and at all costs

[Age of Fear](#) Zachary Smith, 2019-03-05 Fear can be more dangerous than the threats we think loom over us how Germans and German Americans were perceived as a dangerous enemy during World War I Although Americans have long celebrated their nation's diversity they also have consistently harbored suspicions of foreign peoples both at home and abroad In *Age of Fear* Zachary Smith argues that as World War I grew more menacing and the presumed German threat loomed over the United States many

white Anglo Saxon Americans grew increasingly concerned about the vulnerability of their race culture and authority. Consequently they directed their long held apprehensions over ethnic and racial pluralism onto their German neighbors and overseas enemies whom they had once greatly admired. Smith examines the often racially tinged apocalyptic arguments made during the war by politicians, propaganda agencies, the press, novelists, and artists. He also assesses citizens' reactions to these messages and explains how the rise of nationalism in the United States and Europe acted as a catalyst to hierarchical racism. Germans in both the United States and Europe eventually took the form of the proverbial Other: a dangerous, volatile, and uncivilized people who posed an existential threat to the nation and all that Anglo Saxon Americans believed themselves to be. Exploring what the Great War meant to a large portion of the white American population while providing a historic precedent for modern day conceptions of presumably dangerous foreign Others, *Age of Fear* is a compelling look at how the source of wartime paranoia can be found in deep seated understandings of racial and millennial progress.

Radio Goes to War
Gerd Horten, 2002-02-06. By focusing on the medium of radio during World War II, Horten has provided us with a window into an important change in radio broadcasting that has previously been ignored by historians. The depth of research, the book's contribution to our understanding of radio and the war, make *Radio Goes to War* an outstanding work. Lary May, author of *The Big Tomorrow: Hollywood and the Politics of the American Way*. Radio broadcasting and its impact on American life still remains a neglected area of our national history. *Radio Goes to War* demonstrates conclusively how short sighted that omission is. As we enter what is sure to be another era of contested claims of government control over freedom of speech, the controversies and compromises of wartime broadcasting sixty years ago provide an ominous example of difficult decisions to be made in the future. The alliance of big business, advertising, and wartime propaganda that Horten so convincingly illuminates takes on a heightened significance especially as this relationship has tightened in the last several decades. When radio and television go to war again, will they follow the same course? This is cautionary reading for our new century. Michele Hilmes, author of *Radio Voices: American Broadcasting, 1922-1952*. *The New Spirit in the European Theatre, 1914-1924*. Huntly Carter, 1925.

History of Zionism, 1600-1918

BOOK JACKET **Secret Weapons and World War II**
Walter E. Grunden, 2005. Grunden's analysis of this fundamental flaw in the Japanese war effort seamlessly weaves together science, technology, and military history to provide an entirely unique look at a crucial but understudied aspect of World War II. Comparing the science and weapons programs of all the major combatants, he demonstrates that Japan's failure was nearly inevitable given its paucity of strategic resources, an inadequate industrial base, the absence of effective centralized management to coordinate research, military hostility toward civilian scientists, and bitter interservice rivalries. In the end, Japan could not overcome these obstacles and thus failed to make the transition to the kind of Big Science it needed to ward

off its enemies and dominate the Far East BOOK JACKET *Proceedings of the United States Naval Institute* United States Naval Institute,1925 *Print Quarterly* ,2007 **The Saturday Evening Post** ,1929 **World War II Propaganda** David Welch,2017-10-12 Shows in illuminating detail how the Allied and Axis forces used visual images and other propaganda material to sway public opinion during World War II Gives the reader primary source examples of World War II propaganda answering the need for the study of images that is necessary in today s history study Amazon com
