We Hold These Truths

James Sterling Ayars

We Hold These Truths:

We Hold These Truths John Courtney Murray, SJ, 2005-07-14 The 1960 publication of *We Hold These Truths* marked a significant event in the history of modern American thought. Since that time Sheed Ward has kept the book in print and has published several studies of John Courtney Murray's life and work. We are proud to present a new edition of this classic text which features a comprehensive introduction by Peter Lawler that places Murray in the context of Catholic and American history and thought while revealing his relevance today. From the new Introduction by Peter Lawler: The Jesuit John Courtney Murray (1904-67) was in his time probably the best known and most widely respected American Catholic writer on the relationship between Catholic philosophy and theology and his country's political life. The highpoint of his influence was the publication of *We Hold These Truths* in the same year as an election of our country's first Catholic president. Those two events were celebrated by a *Time* cover story (December 12, 1960) on Murray's work and influence. The story's author, Protestant Douglas Auchincloss, reported that it was "The most relentlessly intellectual cover story I've done." His amazingly wide-ranging and dense, if not altogether accurate, account of Murray's thought was crowned with a smart and pointed conclusion: "If anyone can help U.S. Catholics and their non-Catholic countrymen toward the disagreement that precedes understanding John Courtney Murray, can Murray's work of course be treated with great respect and has had considerable influence, but now it's time to begin to think of him as one of America's very few genuine political philosophers." His disarmingly lucid and accessible prose has caused his book to be widely cited and celebrated, but it still is not well understood. It is both praised and blamed for reconciling Catholic faith with the fundamental premises of American political life. It is praised by liberals for paving the way for Vatican II's embrace of the American idea of religious liberty, and it is blamed by conservatives and traditionalists for obscuring the real conflicts between Catholicism and Americanism. Both the liberal praise and the conservative blame are somewhat misguided. The last thing Murray wanted to do was bring the church up to date with the latest currents in American thought. He wanted to show how distinctively Catholic thought could illuminate the authentic American idea of liberty. *We Hold These Truths* at least offers the hope that Catholic natural law thinking can bring together the religious devotion and moral concerns of the evangelicals with the devotion to reason and concern for scientific truth of the secular humanists. It offers the hope of getting Americans really arguing again, of holding again the truth that they are capable of engaging in the dialogue about the human good that is the foundation of any civil and civilized moral and political life. Peter Augustine Lawler is professor of political science at Berry College in Georgia.

We Hold These "Truths" Casey Burgat, 2025-02-04. In this clear-eyed guide, America's political experts cut through the spin and expose the myths holding our democracy back. Our political system is bogged down by convenient falsehoods fueled by those who benefit from the chaos. These myths distort our view of government and prevent us from solving real problems, leaving many Americans feeling frustrated and hopeless. In *We Hold These Truths*, former congressional staffer turned George Washington University grad school professor Casey Burgat leads a diverse team of officials, academics, and experts from both sides of the aisle to expose the lies at the heart of our political dysfunction. They debunk talking points about term limits, lobbyists' money in politics, and more, offering real-world insights into how our government actually works.
