Are the Kids Alright? Linda Rose Ennis,2023-05-01 During the pandemic the focus has been on how education and social interaction with peers were integral to children's functioning However very little regard was given to another very important question how do our children feel about the pandemic and how do they process this experience Why is it assumed that cognitive functioning and social interaction are the most significant areas of child development What emotional factors are at play Are the children alright How are their families coping and does this have an impact on the children What I hope to achieve by compiling this edited collection is to bring awareness to the child's perspective within the family unit in addition to addressing other contributing factors that had an impact on their coping mechanisms This collection will hopefully inform whether the choices that were made and should be made related to children have been sound ones and perhaps should be re-examined as a result of this book's findings conclusions and speculations **Preschool Clues** Angela C.
