[In the Potter's Workshop](#) Robert P. Vande Kappelle, 2019-03-08 When you think of God what images come to mind Do you see God in others Do you acknowledge God's presence in each circumstance and situation of your everyday life no matter how trivial How you conceive God determines how you experience God As contemporary author Frederick Buechner advises Listen to your life Listen to what happens to you because it is through what happens to you that God speaks While spiritual life of some kind is necessary for psychological health psychotherapist Thomas Moore indicates in *Care of the Soul* that excessive or ungrounded spirituality can be dangerous leading to compulsive and even violent behavior It is better for religious seekers to embrace a religious practice that has been tested and refined over time than to experiment solo or by joining some exotic new sect In this book Dr Vande Kappelle explores the richness of Catholic and Protestant spiritual traditions and the power of intuition and imagination to chart an approach to the sacred that is simple practical and effective Holistic religion requires three elements in creative tension a historical or institutional element a mystical or emotional element and an intellectual or scientific element If you want to know what this means and how it is accomplished read this book Designed as a study guide for group or individual use *In the Potter's Workshop* will challenge and inspire you to experience God in ways that are sustainable and transformative

Finding Our Happiness Flow Dr. Robert Puff, Ph.D., 2015-06-25

What is happiness Asking someone to define happiness is like asking him her to define success Happiness can mean a lot of different things and the definition may vary from one person to another To one person happiness may mean having lots of possessions To another person happiness may mean being very successful in his or her chosen career To still another person happiness may simply mean having a healthy and happy family Ask yourself What is happiness for you Here s another important question Can you control your happiness Some people say that happiness is a choice These people claim that you can choose to be happy regardless of the circumstances in your life That sounds good but happiness is such an abstract and often fleeting state How do we reach for it Is it a difficult process Can it be forced or can it be faked We all want to grasp happiness but how do we do that Finding Our Happiness Flow helps people just like you find the real meaning of happiness True happiness is within your grasp and it can be achieved by accepting what is and living in the present moment This book will teach you how to let go of the past and the future as well as your fears desires hurts and other things that get in your way of true happiness Finding Our Happiness Flow will teach you how you can love your life and experience happiness everyday regardless of the circumstances Sound too good to be true Read and give it a try happiness is within your grasp

The Death of Industrial Civilization Joel Jay Kassiola,1990-08-14 The Death of Industrial Civilization explains how the contemporary ecological crisis within industrial society is caused by the values inherent in unlimited economic growth and competitive materialism Kassiola shows that the limits to growth critique of industrial civilization is the most effective stance against what seems to be a dominant and invincible social order He prescribes the social changes that must be implemented in order to transform industrial society into a sustainable and more satisfying one Popular Culture and the Political Values of Neoliberalism George A. Gonzalez,2019-02-01 Reality is made up of the Absolute and Causality The absolute most saliently philosophized about by Georg Hegel is where normative values inhere Causality can be described as the measurable effects of the normative values of the absolute and the laws of physics also ostensibly a product of the absolute Humans are special insofar as they access the higher aspects of the Absolute altruism compassion love humor science engineering etc The Absolute also contains what can be considered the less attractive values or impulses greed lust for power hate self centeredness conceit etc Predicating society on what I deem the lower spirits aspects of the absolute most prominently greed results in personal social dysfunction and ultimately the end of civilization Conversely a society based on justice is stable and vibrant Justice is a classless society free of gender and ethnic biases My argument is based on popular culture especially the Star Trek franchise One implication of my thesis is that capitalist values generate psychological neurosis and societal instability even catastrophe Additionally the political values that dominate the current neoliberalist world system and especially the American government are the other the will to power resulting in war and global political instability Popular culture is germane to philosophy and contemporary politics because television movie creators frequently try to attract viewers by conveying authentic philosophical and political motifs Conversely viewers seek out authentic movies and

television shows This is in contrast to opinion surveys for instance as the formation of the data begins with the surveyor seeking to directly solicit an opinion however impromptu or shallow

Money Drunk/Money Sober Mark Bryan, Julia Cameron, 1999-02-09 In a society where it is often easier to discuss sex than money many of us have hidden issues about personal finances But when fending off bill collectors begging for salary advances or borrowing from relatives becomes a way of life unresolved money problems can lead to enormous stress and destroy relationships careers and lives Do you recognize yourself or someone you love in any of these descriptions

Addiction and Responsibility Francis F. Seeburger, 1993 Is addiction a disease a behavior disorder a moral failing Is it genetic or learned What is it like to be addicted What are its roots and how can it be uprooted

Anyone who has wrestled with such basic questions about addiction will find welcome answers in this groundbreaking philosophical inquiry into the addictive mind

The author helps readers to understand addiction existentially as a fundamental way in which we can be

Addiction argues the author bears witness to a basic human longing that no thing can satisfy It is a distortion of that longing one that misses its mark the original meaning of sin It leads to a complex process of disownment in which the addict strips himself of ownership over himself and his own life

Genuine freedom from addiction ultimately requires practicing a radical form of detachment in which we allow ordinary experience to wash over us with the full force of its true extraordinariness

This reverses the process of disownment and returns us to ourselves

In such detachment we are given back responsibility the ability truly to respond to events rather than just reacting to them

This major work is addressed to all those who have ever had to face addiction either in themselves or in those they love and who are still struggling to understand it

Mining both Western and Eastern sources psychology and spirituality as well as philosophy

Addiction and Responsibility brings an important topic to a new level
