Web Warriors II Dimension X:

Hero's Trial: Star Wars Legends James Luceno, 2011-06-28 Merciless attacks by an invincible alien force have left the New Republic reeling. Dozens of worlds have succumbed to occupation or annihilation and even the Jedi Knights have tasted defeat. In these darkest of times the noble Chewbacca is laid to rest having died as heroically as he lived and a grief-stricken Han Solo is left to fit the pieces of his shattered soul back together before he loses everything: friends, family, and faith. Refusing help from Leia or Luke, Han becomes the loner he once was seeking to escape the pain of his partner's death in adventure and revenge. When he learns that an old friend from his smuggling days is operating as a mercenary for the enemy, he sets out to expose the traitor. But Han's investigation uncovers an even greater evil: a sinister conspiracy aimed at the very heart of the New Republic's will and ability to fight the Jedi. Now Han must face down his inner demons and, with the help of a new and unexpected ally, honor Chewbacca's sacrifice in the only way that matters: by being worthy of it. Features a bonus section following the novel that includes a primer on the Star Wars expanded universe and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years.

Dimension X James Luceno, 2002 WELCOME TO VIRTUAL REALITY IN CYBERSPACE WHERE EVERYTHING'S REAL INCLUDING DEATH. Teenage misfits Marz and Tech are just two more orphaned brothers in New York, but they only live there. In the boys' real world, the dazzling cybernetic metropolis known as Virtual Network, they are cybersleuths, genius hackers, and a cut above the best in Extreme Sports Racing. There are some who think the boys know too much, particularly since Tech jumped the Escarpment, an irregularity designed to stop the city's corporate tentacles from reaching an uncharted cyberland outside Virtual Network control, known as the Wilds. As the only one ever to make the jump and live to talk about it, Tech alone knows the coveted code sequence that made it possible. Powerful people want that code. For Tech, the only escape is back through the Wilds. Exploring the unknown has always been risky, but Tech's about to confront far worse perils than cybersabotage and hard deletes.

This book is not just a celebration of the discovery of the Mandelbrot set; it also brings fractal geometry up to date with a gathering of the thoughts and enthusiasms of the foremost writers and researchers in the field.
