Liberty Means Freedom for All Steven H. Propp, 2012-11 Thomas Anderson has just graduated from CSU Stentoria with his degree in Political Science It s an election year and as a young progressive in California who has been raised by equally progressive parents he is very much concerned with the political issues currently being discussed in the mass media A chance encounter with a fellow graduate named Kelly Kelso however shakes up his sett led view of the world He is

challenged to examine the rising number of alternatives to the two party system presented by third party movements such as the Libertarian Party and the Green Party and is forced to acknowledge that there is far more to politics than simply Democrat versus Republican and liberal versus conservative Thomas delves energetically into not only the growing Libertarian movement but the free market perspective of the Austrian School of economics as well as the rigid yet compelling view of Ayn Rand's philosophy of Objectivism His explorations grow wider now encompassing the Tea Party movement and the Christian Right tax resisters and gun rights advocates survivalists and militia members anarchists communists and Democratic Socialists as well as the Occupy Wall Street movement He debates the radical environmental views of animal welfare and animal rights advocates and challenges opponents of corporate globalism as well as deniers of global warming as he struggles to reformulate and articulate his own developing beliefs while coping with a sea of conflicting ideas and opposition But this abstract political theory is brought into sharp encounter with concrete political reality when Thomas hears a news report of an armed conflict with authorities taking place just outside of town involving someone with whom he has become emotionally involved

Who Really Killed JFK? Therlee Gipson, 2018-09-03 Warren Commission of 1963 1964 concluded that the President was assassinated by Lee Harvey Oswald acting alone and that Jack Ruby acted alone when he killed Oswald before he could stand Trial These conclusions were initially supported by the American public however polls conducted from 1966 to 2004 found that as many as 80 percent of Americans have suspected that there was a plot or cover up Contrary to the Warren Commission the United States House Select Committee on Assassinations HSCA in 1979 concluded that President John F Kennedy was probably assassinated as a result of a conspiracy The HSCA found both the original FBI investigation and the Warren Commission Report to be seriously flawed While agreeing with the Commission that Oswald fired all the shots which caused the wounds to Kennedy and Governor Connally it stated that there were at least four shots fired and that there was a high probability that two gunmen fired at the President
