WHO WILL CRY - WHEN YOU DIE sweta leena panda, 2025-12-27 In a society that is obsessed with success we ve forgotten to consider the single most fundamental question When we pass away and we die who will truly mourn our loss This novel that is transforming follows the journey of those who have accomplished everything that society claims to bring happiness but only to find a devastating empty space at the top Through ten enlightening chapters that explore the reasons why those who succeed often live miserable lives why people who appear to be balancing everything are likely to sacrifice in a variety of ways and how the desire for success itself hinders us from living a meaningful life The book debunks our fantasies about success and reveals the devastating cost of conflating productivity with the need to achieve The book is based on spiritual wisdom psychological insights and the truth about human nature Every chapter shows how our actions every day affect the karma which shapes our future We meet people who created empires and destroyed relationships who made a fortune but fell out of their lives at the hands of strangers but were not known to their family members The story shifts from naivety to

realization as well as from performance to being present and from a lack of success to real significance The last section offers a step by step guideline to living life in a holistic way from the teenage years to death providing practical advice for each stage This isn't an easy to follow guide with quick solutions but rather a mirror that reveals the shaky reality of the way we live our lives and how we'd like to have lived It's a call to think differently when it's already too late to make lives that we'll be able to mourn rather than achievements that merit a mention as well as to develop into those whose absence could cause real holes within the fabric of people's lives
