**The Channels of Student Activism** Amy J. Binder, Jeffrey L. Kidder, 2022-05-16 What can student activism at flagship public universities of the toss up states of Arizona Colorado North Carolina and Virginia tell us about polarization and the next generation of political activists Sociologists Amy J Binder and Jeffrey L Kidder found that while most college campuses are considered progressive and liberal students can be involved on campus in many ways a lack of left leaning infrastructure after graduation makes it hard for activist students to effectively channel their energies into political involvement post college And though usually in the minority conservative students tend to be better organized as campus groups helped by the funds and expertise of right leaning organizations heavily involved in universities After graduation conservative students can readily move into those organizations to continue their politically active lives The conservative strategy has helped to increase the number of provocations on campus and lower the public s trust in higher education The authors look at both liberal and conservative student activism has a compelling takeaway the left is being outflanked by the right in recruiting young activists who will invest time and energy in party politics with worrisome implications for the future of the Democratic party What s more the authors provide a helpful read on the way college students themselves are being instrumentalized by the right in US culture wars

**Routledge Handbook of Peacebuilding** Roger Mac Ginty, 2024-08-20 This updated and revised second edition of the Routledge Handbook of Peacebuilding contains cutting edge analyses of contemporary attempts to reach and sustain peace The book covers the main actors and dynamics of peacebuilding as well as the main challenges that it faces with accessible chapters The volume is comprehensive covering everything from the main international institutions for peacebuilding to the links between peacebuilding and climate change or peacebuilding and trauma It is also firmly interdisciplinary with a number of chapters devoted to showcasing how different disciplines interpret peacebuilding and how they contribute to it Bringing together leading thinkers and practitioners on peacebuilding many from the Global South the handbook offers a valuable hands on perspective on how peace can be secured and sustained There is a significant

emphasis on comparison and the book shows how peacebuilding is best examined from the vantage point of multiple cases. The book is organized into six thematic sections: Part I Architecture and Actors; Part II Reading Peacebuilding; Part III Issues and Approaches; Part IV Violence and Security; Part V Everyday Living; Part VI Disciplinary Approaches. This book will be essential reading for students of peacebuilding, mediation, and post-conflict reconstruction, and of great interest to students of statebuilding, intervention, civil wars, conflict resolution, war, and conflict studies, and IR in general. **Philosophy of Education** John Ryder, 2022-09-16. A 2023 Choice Reviews Outstanding Academic Title. Assuming no background knowledge of philosophy, John Ryder's introductory text surveys canonical writings and contemporary applications to inform future teachers' practice of systematic philosophy of education. Exposing readers to the philosophies that built Western education, the book welcomes the development of alternate approaches through systematic analysis of how theory informs practice. The book systematically analyzes key contributions by the four most influential figures in the philosophy of Western education: Plato, Jean-Jacques Rousseau, John Dewey, and Paulo Freire. The book then builds on historical theories to help readers develop their own systematic philosophies of education. After questions of why, how, by whom, for whom, about what, where, and when education should be undertaken, the book delves into metaphysical, epistemological, and socio-political questions that may underlie educational principles. Encouraging readers to practice a philosophy of education rather than follow a prescribed path, the book presents a model of exploration that builds on ideas developed by philosophers such as Nel Noddings that can be applied across contemporary and emerging educational issues. The analytic experience and conceptual background material of this book enables readers to think carefully and reflectively about educational principles, policies, and practices as they dedicate themselves to the profession of education.

**Community Learning and the Process of Empowerment** Roberto Vargas, 1986. *Cardozo Journal of Conflict Resolution*, 2006.

**A Dialogue Between a Baptist and a Pedobaptist** David Young (Baptist Minister.), 1876. *The Northern Ireland Legal Quarterly*, 1990.

**Journal of Economic Literature**, 2003.

**Peacebuilding in Traumatized Societies** Barry Hart, 2008-02-26. This work examines trauma, identity, security, education, and development as issues of critical importance to peacebuilding and social reconstruction after large-scale violence. This violence takes the form of war, mass killings, and genocide, as well as structural violence that has humiliated and impoverished millions of people across the globe. Transitional justice, leadership, religion, and the arts are other crucial issues that are included in this analysis of violence and its transformation. The book explores how each issue can be independently addressed for transformational purposes but argues for their active interdependence in order to more effectively help individuals, communities, and societies emerge from violence and begin the rebuilding process. *Peacebuilding for Traumatized Societies* examines these issues in theoretical and practical terms through case studies and descriptions of training and problem-solving procedures in Rwanda, the Balkans,

Colombia and the Philippines      **Transforming Power** Judy Rebick,2009-03-10 In Transforming Power veteran activist Judy Rebick champions new ways of achieving political goals by emphasizing co operation and consensus over confrontation and partisanship Rebick argues that today s combination of environmental crisis globalization and rapid technological innovation is producing profound new ideas about social and political life and that this groundswell is truly the vanguard of a global movement to change the way we live our lives from the ground up      *Conference Proceedings* ,2001      **Feminist Studies** ,2006      **A Composition of Consciousness** Patricia H. Perry,2000 The premise of this book is that teachers of writing will never make any significant strides in the teaching and learning of writing until pervasive inhibiting and misinformed views about writing are transformed in the consciousness of people from the home and classroom to the office and boardroom Dr Perry delves into the nature of consciousness the epistemologies of predominant teaching approaches and some heretofore undervalued phenomenological foundations and similarities between the pedagogies and praxes of Paulo Freire and Peter Elbow As a way to begin to address the continuing writing crisis Dr Perry proposes a teaching approach a composition of consciousness that targets and transforms inhibiting views about writing and promotes the creation of productive writing knowledge      *Journal of Ecumenical Studies* ,1989      **World Faiths Encounter** ,1998      **Philosophy of Music Education Review** ,2012
