Varghese, 2008-05-09 Hypothesis on MATTER is a revolutionary alternative concept which attempts to explain all physical phenomena related to matter based on just one type of fundamental particle the Quantum of matter These particles form what the author calls 2D energy fields Space is assumed to contain an infinite number of 2D Energy Fields extending in all directions Nainan masterfully explains a wide array of physical phenomena from the origin of matter to gravity and subatomic interactions to cosmological events based on the simple mechanical interactions of quanta of matter There is no more any need to envisage actions at a distance or to invoke irrational assumptions like diversity of forces mass energy equivalence constancy of light s speed dual nature of electric charge singularities big bang etc This new concept will radically alter our understanding of the physical universe and at the same time explain complex physical phenomena with simple Cause and Effect relationships **The Fourth Dimension Simply Explained** Henry Parker Manning, 1910
