Soft Computing And Its Applications:

Soft Computing and Its Applications Rafik Aziz ogly Aliev, R. R. Aliev, 2001 The concept of soft computing is still in its initial stages of crystallization Presently available books on soft computing are merely collections of chapters or articles about different aspects of the field This book is the first to provide a systematic account of the major concepts and methodologies of soft computing presenting a unified framework that makes the subject more accessible to students and practitioners Particularly worthy of note is the inclusion of a wealth of information about neuro fuzzy neuro genetic fuzzy genetic and neuro fuzzy genetic systems with many illuminating applications and examples

Soft Computing and its Applications in Business and Economics Rafik Aziz Aliev, Bijan Fazlollahi, Rashad Rafik Aliev, 2012-08-10 Soft Computing and its Applications in Business and Economics or SC BE for short is a work whose importance is hard to exaggerate Authored by leading contributors to soft computing and its applications SC BE is a sequel to an earlier book by Professors R A Aliev and R R Aliev Soft Computing and Its Applications World Scientific 2001 SC BE is a self contained exposition of the foundations of soft computing and presents a vast compendium of its applications to business finance decision analysis and economics One cannot but be greatly impressed by the wide variety of applications applications ranging from use of fuzzy logic in transportation and health case systems to use of a neuro fuzzy approach to modeling of credit risk in trading and application of soft computing to e commerce To view the contents of SC BE in a clearer perspective a bit of history is in order In science as in other realms of human activity there is a tendency to be nationalistic to commit oneself to a particular methodology and relegate to a position of inferiority or irrelevance all alternative methodologies As we move further into the age of machine intelligence and automated reasoning we run into more and more problems which do not lend themselves to solution through the use of our favorite methodology

Soft Computing

and Its Applications: A unified engineering concept Kumar S Ray,2015 Soft Computing in Information Retrieval Fabio Crestani,Gabriella Pasi,2013-03-19 Information retrieval IR aims at defining systems able to provide a fast and effective content based access to a large amount of stored information The aim of an IR system is to estimate the relevance of documents to users information needs expressed by means of a query This is a very difficult and complex task since it is pervaded with imprecision and uncertainty Most of the existing IR systems offer a very simple model of IR which privileges efficiency at the expense of effectiveness A promising direction to increase the effectiveness of IR is to model the concept of partially intrinsic in the IR process and to make the systems adaptive i e able to learn the user s concept of relevance To this aim the application of soft computing techniques can be of help to obtain greater flexibility in IR systems **Advances in Soft Computing and Its Applications** Félix Castro,Alexander Gelbukh,Miguel González,2013-11-18 The two volume set LNAI 8265 and LNAI 8266 constitutes the proceedings of the 12th Mexican International Conference on Artificial Intelligence MICAI 2013 held in Mexico City Mexico in November 2013 The total of 85 papers presented in these proceedings were carefully reviewed and selected from 284 submissions The first volume deals with advances in artificial intelligence and its applications and is structured in the following five sections logic and reasoning knowledge based systems and multi agent systems natural language processing machine translation and bioinformatics and medical applications The second volume deals with advances in soft computing and its applications and is structured in the following eight sections evolutionary and nature inspired metaheuristic algorithms neural networks and hybrid intelligent systems fuzzy systems machine learning and pattern recognition data mining computer vision and image processing robotics planning and scheduling and emotion detection sentiment analysis and opinion mining Computational Intelligence: Soft Computing and Fuzzy-Neuro Integration with Applications Okyay Kaynak,Lotfi A. Zadeh,Burhan Türksen,Imre J. Rudas,1998-08-20 Soft computing is a consortium of computing methodologies that provide a foundation for the conception design and deployment of intelligent systems and aims to formalize the human ability to make rational decisions in an environment of uncertainty and imprecision This book is based on a NATO Advanced Study Institute held in 1996 on soft computing and its applications The distinguished contributors consider the principal constituents of soft computing namely fuzzy logic neurocomputing genetic computing and probabilistic reasoning the relations between them and their fusion in industrial applications Two areas emphasized in the book are how to achieve a synergistic combination of the main constituents of soft computing and how the combination can be used to achieve a high Machine Intelligence Quotient
