Transfer Of Technology:

The International Transfer of Technology Richard D. Robinson, 1988 Robinson's overview of the topic includes definitions and measures a discussion of modes of transfer a model of supply and demand and an analysis of government intervention Notes but no bibliography Annotation copyrighted by Book News Inc Portland OR

Technology Transfer: From Invention to Innovation A. Inzelt, Jan Hilton, 1999-02-28 Technology transfer has expanded rapidly over the past 20 years in Western Europe North America and the Pacific Rim It has been estimated that some 50% of new products and processes will originate outside the primary developer academic and other research institutions are obvious sources of much of this new technology In the NATO Co operating countries however technology transfer is in its infancy it is crucial for wealth creation and improvement in the quality of life that this mechanism is developed The papers selected for inclusion in this book discuss issues related to the development of technology transfer in NATO Co operating countries The book identifies crucial research issues for science and technology policy researchers and as a conclusion offers some policy recommendations The authors are drawn from NATO and Co operating partner countries from other parts of the world and from international organisations The focus of the book is on the institutional framework of knowledge and technology transfer intellectual property rights as sources of information and tools for co operation international national and regional aspects of knowledge and technology dissemination and diffusion and networking Audience Academic institutions research institutes intellectual property practitioners science and technology policy makers technology transfer managers high tech industries

International Technology Transfer Nathan Rosenberg, Claudio Frischtak, 1985 For many years it was assumed that technology transfer would prove an unqualified answer for the problems of the developing nations vastly simplifying and accelerating their rate of economic development The papers in this volume question these assumptions demonstrating how technology transfer can be very costly and that success is contingent upon a variety of factors including the direction of indigenous technology and the political setting of the recipient country

Technology Transfer Neil F. Sullivan, 1995 This book is aimed at helping researchers to understand the commercial potential of their technology It will help to bridge the communication gap and familiarise the reader with the plethora of functions skills and processes that commercialisation requires It will not be a substitute for the professional advice of patent agents solicitors marketing executives etc but will go some way to helping you to understand what they require In addition the option of going it alone to set up your own business will be evaluated

University Technology Transfer Tom Hockaday, 2020-04-07 Demystifying technology transfer an increasingly important but little understood aspect of research universities mission How do we transfer the brilliance of university research results into new products services and medicines to benefit society University research is creating the technologies of tomorrow in the fields of medicine engineering information technology robotics and artificial intelligence These early stage technologies need investment from existing and new businesses to benefit society But how do we connect university research outputs with

business and investors This process Tom Hockaday explains is what university technology transfer is all about identifying protecting and marketing university research outputs in order to shift opportunities from the university into business In this detailed introductory book a comprehensive overview of and guide to the subject Hockaday an internationally recognized technology transfer expert offers up his insider observations opinions and suggestions about university technology transfer He also explains how to develop strategically operate and fund university technology transfer offices while behaving in accordance with the central mission of the university Aimed at people who work in or with university technology transfer offices as well as anyone who wants to learn the basics of what is involved University Technology Transfer speaks to a global audience Tackling a complex topic in clear language the book reveals the impressive scale of patenting licensing and spin out company creation while also demonstrating that university technology transfer is a commercial activity with benefits that go well beyond the opportunity to make money

Technology Transfer and US Public Sector Innovation Albert N. Link, Zachary T. Oliver, 2020 Technology Transfer and US Public Sector Innovation provides an overview of US technology policies that are the genesis for observed technology transfer activities By describing the technology transfer process from US federal laboratories and other public sector organizations this exploration informs the reader in detail of how the transfer process behaves and the social benefits associated with it Empirical information and evidence are presented on myriad forms of technology transfer including but not limited to patents licenses and CRADA activity Publications are a form of technology transfer as are new metrics that quantify the efficiency of the technology transfer process Link and Oliver's work will be of great use to public policy makers in industrialized countries scientists in federal laboratories worldwide and academic researchers In addition it will hold an important position in national and academic libraries

Technology Transfer for Entrepreneurs Clifford M. Gross, Joseph P. Allen, 2003-12-30 A toolbox for accessing federal laboratory innovations and financing the acquisition of new technologies with corporate equity this book is also a guide to understanding the expertise of specific government laboratories Entrepreneurs can rapidly accelerate the growth of their companies and become more competitive by acquiring federal laboratory innovations This book is an indispensable resource for those who want access to the latest breakthrough technologies most of which can be traced to universities and federally funded laboratories These taxpayer funded idea factories can and should be leveraged by companies for competitive advantage The authors describe how the private sector can engage these labs as long term strategic partners as well as development partners for the ongoing cost effective improvement of new technologies Jargon free and succinct this guide also explains how to benefit from knowledge of the current technology transfer landscape in order to maximize this special private public partnership No country can equal the United States in research and development assets But the federal government is not always as successful as it could be in using its authority to encourage such partnerships It is therefore up to the private sector entrepreneurs as well as established companies seeking new growth outlets exploit the information presented here Included

is a directory of federal laboratories with a synopsis of their expertise and contact information along with copies of the breakthrough technology transfer legislation that has made technology transfer possible **Technology Transfer** Stewart Green, Paul Warren, 2002-08-14 This text is written by two leading quality specialists and serves as a quick guide reviewing the basic concepts associated with the transfer of product development between manufacturing sites often to different parts of the world where cultural and management differences abound It is a hot topic which is brought down to earth covering key activities documentation reporting and post transfer reporting for manufacturing professionals *Technology Transfer* United States.
