

# The Trees Extra Questions and Answers Short Answer Type

Question 1.

Why do the trees need to move out? Where have they been and why?

Answer:

The trees in the forest have been cut and man has planted trees in his courtyard for his selfish decorative purposes. It makes the trees feel suffocated and out of place. So they need to move out into the forest. They have been in the city houses as men have imprisoned them there.

**1001 Answers to Questions about Trees** Rutherford Hayes Platt, 1962      Questions and Answers from the Justice of the Peace, 1902      **Data Structures for Engineers and Scientists Using Python** Rakesh Nayak, Nishu Gupta, 2024-09-18

The text covers the fundamentals of Python programming and the implementation of data structures using Python programming with the help of worked out examples. It provides a learning tool for engineers as well as for researchers and scientists of advanced level. The text further discusses important concepts such as polynomial manipulation, sparse matrices, implementation of stack using the queue model and topological sorting. This book discusses the implementation of various data structures such as an array, stack, queue, tree and graph along with sorting and searching algorithms. Includes programming tips to highlight important concepts and help readers avoid common programming errors. Presents each concept of data structure with a different approach and implements the same using Python programming. Offers rich chapter end pedagogy including objective type questions with answers, review questions and programming exercises to facilitate review. Covers fundamentals of Python up to object oriented concepts including regular expression. It is primarily written for senior undergraduate, graduate students and academic researchers in the fields of electrical engineering, electronics and communication engineering, computer engineering and information technology.
