**Human Development in the Era of Globalization** Keith B. Griffin, 2006 Honoring Keith Griffin's more than 40 years of fundamental contributions to the discipline of economics the papers in this volume reflect his deep commitment to advancing the well being of the world's poor majority and his unflinching willingness to question conventional wisdom as to how this should be done Four overarching themes recur in Keith Griffin's work and this book the need to both eradicate poverty and redress inequalities in the distribution of wealth within and among nations the impact of growth on inequality and conversely inequality's impact on growth the political economy of policy making and the need for openness to heterogeneity in both analytic tools and in policy recommendations
