Veiled Bride:

The Bride's Veil Marisa Livet, 2014-11-26 The same three Irish characters who were the protagonists of *The perilous Art of Forgetting* William Collins Peter Boyle and Reginald McKenzie are back A few years have passed since then and they have left Ireland to start a new page of their life in charming Tuscany Once again they get involved against their will and expectation in dramatic happenings and mysterious murders and have to summon up their speculative intellectual talents to unravel the evidences and the plots What s happened to the beautiful rich and spoilt Fiammetta Innocenti only a few days before her wedding Was she really killed by Giorgio Cini the photographer **Harper's New Monthly Magazine** ,1873

The Ancient Unconscious Vered Lev Kenaan, 2019-05-08 In the field of classical studies the psychoanalytic construction of the unconscious is rarely regarded as a fruitful methodological concept Commonly understood as a modern conceptual invention rather than the discovery of a psychic reality the notion of the unconscious is often criticized as an anachronistic lens one that ineluctably subjects ancient experience to modern patterns of thought The Ancient Unconscious seeks to challenge this ambivalent theoretical disposition toward the psychoanalytic concept and reclaim the value of the unconscious as a methodological tool for the study of ancient texts by transforming our understanding of what the unconscious means the way it operates and how it relates to textual hermeneutics It considers the debate over whether the ancients had an unconscious as an invitation to rethink the relationship between antiquity and modernity investigating the meaning of textuality through contact between historical moments that have no priority under the law of chronology associations and connections between the past and its future including the present belong to the sphere of the unconscious which is primarily employed here in order to study the inherent often hidden links that bind modernity to classical antiquity and modern to ancient experiences Drawing on an incisive examination of the complicated often conflicted relationship between classical studies and psychoanalytic theory the volume aims to explain why the concept of the unconscious is in fact inseparable from and crucial for the study of the ancient text and more generally the methodology of classical philology *Myths and Tragedies in Their Ancient Greek Contexts* R. G. A. Buxton, 2013-07-25 This work brings together Richard Buxton s studies of Greek mythology and Greek tragedy focusing especially on the interrelationship between the two Situating and contextualising topics and themes within the world of ancient Greece he traces the intricate variations and retellings which they underwent in Greek antiquity Oasis Identities Justin Ben-Adam Rudelson, 1997 Drawing upon extensive fieldwork in the Xinjiang oasis of Turpan Rudelson assesses the factors that undermine the creation of a pan Uyghur identity **Off with Her Head!** Howard Eilberg-Schwartz, Wendy Doniger, 1995-11-14 Whereas many books look at how women s bodies are represented in different religions and cultures around the world this work explores the site of a woman s voice and identity her head The female head threatens to disrupt the classic gender distinctions that link men to speech identity and mind while relegating women to silence anonymity and flesh The contributors to this collection argue that the objectification of women

as sexual and reproductive bodies results in their symbolic beheading Decapitation occurs symbolically in myths as well as in actual practices such as veiling head covering and cosmetic highlighting which by sexualizing a woman's face turns it into an extension of her body The essays explore how similar treatments of the female head find their unique articulation in diverse religious traditions and cultures in Hindu myths of beheading in Buddhist and Tantric practices and poetry about the hair of female nuns in the resistance to veiling by early Christian women at Corinth in contemporary veiling practices in a Turkish village in the eroticization of the female mouth in ancient Judaism and in Greek and Roman cosmetic practices Together these essays show how the depiction of the female head is critical for an understanding of gender and its influence on other fundamental religious and cultural issues
