## **Green Building Top:**

The World's Greenest Buildings Jerry Yudelson, 2013-01-17 The World's Greenest Buildings tackles an audacious task Among the thousands of green buildings out there which are the best and how do we know Authors Jerry Yudelson and Ulf Meyer examined hundreds of the highest rated large green buildings from around the world and asked their owners to supply one simple thing actual performance data to demonstrate their claims to sustainable operations This pivotal book presents an overview of the rating systems and shows best in class building performance in North America Europe the Middle East India China Australia and the Asia Pacific region practical examples of best practices for greening both new and existing buildings a practical reference for how green buildings actually perform at the highest level one that takes you step by step through many different design solutions a wealth of exemplary case studies of successful green building projects using actual performance data from which to learn interviews with architects engineers building owners and developers and industry experts to provide added insight into the greening process This guide uncovers some of the pitfalls that lie ahead for sustainable design and points the way toward much faster progress in the decade ahead

**Green Consumerism: Perspectives, Sustainability, and Behavior** Ruchika Singh Malyan, Punita Duhan, 2018-10-26 This new volume Green Consumerism The Behavior of New Age Consumer provides a holistic understanding the importance of promoting green products and discusses consumers buying intentions and decisions The chapters consider consumer behavior theory in the context of green or ecologically friendly products from both the academic and business perspectives The chapters present the latest empirical and analytical research in the field of green marketing and provide an abundance of information about profitable and sustainable ways and strategies to deal with environmental problems The volume considers how consumers are taking responsibility and becoming more aware driving change in the marketplace In response companies are integrating appropriate green strategies into their operational activities product development processes and marketing activities to achieve a competitive advantage in saturated markets This helps companies gain market share and minimize their production costs Topics discussed in the volume include green pricing green consumer behavior various dimensions of consumer purchase intention sustainable marketing innovation techniques used to go green eco awareness and other ongoing developments in this rapidly expanding area Key features Discusses research on the latest trends in the field of green marketing green practices green products eco literacy environment awareness protection management etc Provides insight about current consumer behavior consumers eco literacy levels and their desires to go green Covers a multitude of topics including green pricing green consumer behavior sustainable marketing innovation techniques used to go green eco awareness and more

*Climate Action 2009/2010* Sustainable Development International, United Nations Environment Programme, 2009 This third annual edition of Climate Action focuses on some of the major issues for resolution in Copenhagen and the actors who can help to implement the solutions Progress will require commitment and cooperation

Partnerships will be central both in Copenhagen and beyond Climate Action is produced to encourage and assist governments and business to lower greenhouse gas GHG emissions This book features a range of articles that encourage the sharing of best practice and the development of new technologies and initiatives and illustrates the opportunities for business and governments to reduce costs and increase profits while tackling climate change The articles cover Human Impact Policy Business and Finance Technology Energy Transport Ecosystem Services Built Environment and a Regional Focus on Canada

**Handbook of Green Building Design and Construction** Sam Kubba,2016-10-15 Handbook of Green Building Design and Construction LEED BREEAM and Green Globes Second Edition directly addresses the needs of building professionals interested in the evolving principles strategies and concepts of green sustainable design Written in an easy to understand style the book is updated to reflect new standards to LEED In addition readers will find sections that cover the new standards to BREEAM that involve new construction Infrastructure data centers warehouses and existing buildings Provides vital information and penetrating insights into three of the top Green Building Codes and Standards applied Internationally Includes the latest updates for complying with LEED v4 Practices and BREEAM Presents case studies that draws on over 35 years of personal experience from across the world

**Building with Secondhand Stuff** Chris Peterson,2011-10-01 A practical guide to choosing salvaging refreshing and reusing materials such as wood metal stone and glass The Chicago Tribune Anytime you re checking out Craigslist cleaning the basement or patrolling the springtime garage sales you ll encounter opportunities to collect and reclaim usable building materials If you exercise good judgement and know a few salvage tricks you can take advantage of these chances to obtain free or nearly free project supplies and put them to work in your house When you build with secondhand stuff you ll save money and reduce pressure on your local landfill You ll also help curb the consumption of brand new materials that need to be manufactured from raw resources and shipped across the country or around the world But perhaps best of all when you use salvaged materials to build your home projects you ll get unique results and original outcomes that satisfy you in a way that new stuff just can t Building with Secondhand Stuff is about making good decisions and learning specific techniques for getting unusable material into useful condition It covers wood glass metal windows plumbing fixtures hardware and much more Practically any material can be reclaimed using the tools and techniques you ll learn in this helpful book and all for a fraction of the cost of buying new materials at a building center Praise for Building with Secondhand Stuff How can you get a new look or a new shed garage outbuilding or playhouse for the kids for cheap or for free Start with the ideas in Building with Secondhand Stuff If you re looking for something old to lend a new look then look here first Georgia Times Union

**The Greening of America's Building Codes** Aleksandra Jaeschke,2022-12-20 Environmental disasters and severe weather due to climate change both triggered by human actions have had an increasingly direct impact on our homes But the way in which America builds its homes is part of the problem This deeply researched history of sustainable design standards in building codes explores how

public policy standard setting trade associations and financial incentives influence the ways in which the construction of our homes impacts the environment The Greening of America s Building Codes investigates the regulations and economic incentives meant to control the environmental impact of contemporary construction practices as it analyzes the history of residential building codes The book exposes how the socioeconomic and political forces that influenced early building code development continue to define the character of current building codes and by extension determine how we regulate environmental impact and define sustainability today More relevant than ever The Greening of America s Building Codes is a valuable tool for architects architecture students builders real estate developers and homeowners who want to understand how public policy and their own day to day decisions impact the environment Collier's Hansi,1916 *Sustainable Buildings and Infrastructure* Annie R. Pearce,Yong Han Ahn,HanmiGlobal Co, Ltd,2017-12-14 The second edition of *Sustainable Buildings and Infrastructure* continues to provide students with an introduction to the principles and practices of sustainability as they apply to the construction sector including both buildings and infrastructure systems As a textbook it is aimed at students taking courses in construction management and the built environment but it is also designed to be a useful reference for practitioners involved in implementing sustainability in their projects or firms Case studies best practices and highlights of cutting edge research are included throughout making the book both a core reference and a practical guide
