**The Forgotten Debate** Dane J. Cash, 2025-10-14 When it comes to the origins of today's sharp partisan divide most have pointed to the usual suspects Newt Gingrich's Republican Revolution in 1994 Watergate and the Vietnam War In *The Forgotten Debate* Dane J Cash suggests that we need to look further back in history He argues that we can trace the roots of the current ideological divide in America to the period of the Korean War The 1950s were hardly a time of liberal consensus as Cash maintains that liberals themselves were quite divided about the proper course of action in Korea and in the Cold War more generally Left liberals supported containment policy and its manifestation as a limited war in Korea whereas hawkish liberals favored a much more aggressive strategy particularly one vis vis Communist China which was largely indistinguishable from the position taken by avowed conservatives The seeds of neoconservatism were thus sown much earlier than is typically appreciated Furthermore conservative voices were galvanized by what they perceived to be American timidity and ultimately failure in prosecuting the Korean War Their frustrations about Korea and American weakness toward China led them to develop a unilateralist America First foreign policy which coalesced into a coherent movement several years prior to the founding of William F Buckley Jr's *National Review* in 1954 generally considered to be the genesis of modern conservatism Drawing on a range of opinion journals *The Forgotten Debate* shows that conflict rather than consensus marked elite attitudes to the Korean War Cash thus reminds us that the divisions in society today have a much longer history than we typically realize The Korean War is often ignored and overshadowed by later developments like the civil rights movement and the Vietnam War but many of our current ideological positions were forged in that forgotten period

**This Kind of War** T. R. Fehrenbach, 2014-04-01 The book that former Defense Secretary James Mattis recommends as America faces the threat of conflict with North Korea In a recent story *Newsweek* reported Amid increasingly deteriorating relations between the U S and North Korea as President Donald Trump and Kim Jong Un exchange barbs and the threat of a nuclear conflict looms Mattis responded to a question on how best to avoid such a war An audience member asked What can the U S military do to lessen the likelihood of conflict on the Korean Peninsula Mattis responded with a direction to read *This Kind of War* stating There's a reason I recommend T R Fehrenbach's book that we all pull it out and read it one more time *This Kind of War* is perhaps the best book ever written on the Korean War John McCain *The Wall Street Journal* the most comprehensive single volume history of the conflict that began in 1950 and is still affecting US foreign policy Fifty years later not only does this enlightening account give details of the tactics infantrymen and equipment it also chronicles the story of military and political unpreparedness that led to a profligate loss of American lives in Korea T R Fehrenbach an officer in the conflict provides us with accounts of the combat situation that could only have been written by an eyewitness in the thick of the action But what truly sets this book apart from other military memoirs is the piercing analysis of the global political maneuverings behind the brutal ground warfare that marked this bloody period of history one that has been all but forgotten

by many but has become crucially important again A 54 year old history of the Korean War that is much better known in military than civilian quarters Interspersed with this high level narrative are gritty close grained accounts of the grim ordeals heroic sacrifices and sometimes tragic blunders of individual soldiers from privates to generals Politico **The Chinese Communist Armed Forces** Kenneth R. Whiting,1974 Although the history and present state of the Chinese Communist military forces are not as well covered as those of the Soviet Union nevertheless there is a relatively large number of books articles and source collections available in English Then why this study The answer is simply that this is an attempt to tell the story of the Chinese Red Army in as concise a form as possible without compressing the narrative to the point of distortion The study may seem overstuffed with facts or what pass for facts but the author can assure the reader that he did his best to eliminate all but those he considered essential The historical approach has been used for the simple reason that like any other organism the Chinese Red Army is a melange of strengths and weaknesses rooted in its evolution This Monstrous War Wilfred G. Burchett,1953 *Canadian Naval Operations in Korean Waters, 1950-1955* Thor Thorgrimsson,Edward C. Russell,Canada. Department of National Defence. Naval Historical Section,1965 Refighting the Last War D. Clayton James,Anne Sharp Wells,1993 To examine the American high command in the Korean War He explores the roles leadership personalities and prejudices of five key commanders President Harry S Truman Generals Douglas MacArthur Matthew B Ridgway and Mark W Clark and Admiral C Turner Joy and then looks at six crucial issues confronting them in that conflict From the decision made by Truman without congressional approval to commit United States forces to combat in Korea to MacArthur's **Such Men As These** David Sears,2010-05 In 1951 James Michener went to Korea to report on a little known aspect of America's stalemated war navy aviators His research inspired novel about these pilots became an overnight bestseller and perhaps the most widely read book ever written about aerial combat Using Michener's notes author David Sears tracked down the actual pilots to tell their riveting true life stories From the icy windswept decks of aircraft carriers they penetrated treacherous mountain terrain to strike heavily defended dams bridges and tunnels where well entrenched Communist anti aircraft gunners waited to shoot them down Many of these men became air combat legends and one Neil Armstrong the first astronaut to walk on the moon **Such Men As These** brims with action packed accounts of combat and unforgettable portraits of the pilots whose skill and sacrifice made epic history **Mao's Generals Remember Korea** Xiaobing Li,Allan Reed Millett,Bin Yu,2001 Fifty years after the Korean conflict what is a forgotten war for some Americans is an aching memory for China With over a million casualties out of the three million soldiers sent into battle that war looms as large for the People's Republic of China PRC barely a year old when North Korea invaded the South as World War II does for most other countries It was the first international war fought by the Chinese Communist regime to halt counterrevolution it was also a war that the Chinese fully expected to win by virtue of not only superiority of numbers but also their soldiers superior political quality This book presents a mosaic of memoirs by key Chinese military commanders from that war drawing

not only on their personal papers but also on still classified archives and on Chinese language sources unavailable in English. It offers an uncensored behind-the-scenes story of the Communist campaign from the decision to intervene through the truce negotiations that discloses new information on such facets of the war as strategy and tactics, use of propaganda and mobilization of the Chinese population. It also reveals the general's concerns about the possible use of nuclear force and the alleged use of biological and chemical weapons by the United States. The book contains a wealth of new materials on the Chinese intervention including combat operations, logistics, political control, field command and communications. Among those whose recollections are recorded, then acting Chief of Staff Nie Rongzhen reveals how party leadership decided on intervention. Commander in Chief Peng Dehuai provides personal accounts of major battles and communications with Mao and General Yang Dezhi shares secrets of Chinese military strategy and tactics, discussing how the army orchestrated each battle to contend with the better equipped UN forces. The volume also features an updated short history of the PRC's conduct of the war based on Chinese sources plus rare photos from Chinese archives that put readers behind the lines from the Chinese side. Mao's Generals Remember Korea demonstrates that the PRC continues to draw military, diplomatic and strategic lessons from the war it fought fifty years ago with the world's most powerful military force. It offers valuable insight into the Chinese way of war and the military mind of Mao that will be a rich resource for Asian and military scholars.

*Foreign Intervention in Korea* Kye-dong Kim, 1993      *New Zealand and the Korean War: Combat operations* Ian C. McGibbon, 1992      The New Republic Herbert David Croly, 1951      Korean War Max Hastings, 2015-10-20 It was the first war we could not win. At no other time since World War II have two superpowers met in battle. Max Hastings, preeminent military historian, takes us back to the bloody, bitter struggle to restore South Korean independence after the Communist invasion of June 1950. Using personal accounts from interviews with more than two hundred vets, including the Chinese, Hastings follows real officers and soldiers through the battles. He brilliantly captures the Cold War crisis at home, the strategies and politics of Truman, Acheson, Marshall, MacArthur, Ridgway and Bradley, and shows what we should have learned in the war that was the prelude to Vietnam.      **South-North Dialogue in Korea**, 1973      *The Current Digest of the Soviet Press*, 1952      **The Eagle's Talons** Dennis M. Drew, Donald M. Snow, 1988 This volume surveys the American experience in war with emphasis on the complex interactions between political and military affairs. Colonel Drew and Dr Snow provide a key to understanding how and why the United States might employ its military power in the future.      *League of Nations Chronicle*, 1951      *United Nations Reporter*, 1954      NEGOTIATING WITH THE CHINESE COMMUNISTS KENNETH T.
