The Honours System:

The Honours System Michael De-la-Noy, 1985 **The Honours System** Great Britain: Parliament: House of Commons: Public Administration Select Committee, 2012-08-29 The evidence is still that honours are more likely to be awarded to civil servants and celebrities than to people who volunteer in their local community The Committee heard that the process of awarding honours remains opaque even to the Queen's representatives in the counties the Lords Lieutenant PASC calls for an increase in the proportion of people receiving honours for work in their local community rather than to those who are awarded for their work as civil servants and in the wider public sector This report sets out proposals to increase accountability and transparency and strengthening the link to the Monarch These include the introduction of an independent Honours Commission to consider nominations a repeat recommendation from the last parliament that the Prime Minister's strategic direction over the honours system be removed a rebalancing of the proportion of honours awarded to civil servants and public sector workers and volunteers in their local communities that longer citations should be published explaining the reason for awarding an honour that the Lords Lieutenant should have an opportunity to consider and comment on all nominations for an honour within his or her lieutenancy and that the Cabinet Office set out proposals for broadening the range of people who take up roles as independent members of the honours committees The Committee also recommends considering the decision to strip Fred Goodwin of his knighthood that the Honours Forfeiture Committee be made independent and transparent with clear and expanded criteria for forfeiture chaired by an independent figure such as a retired high court judge *The Orders of Knighthood and the Formation of the British Honours System, 1660-1760* Antti Matikkala, 2008 Sheds considerable new light on the nature development and functions of the orders in a key phase of their history and goes a long way to explaining how such archaic institutions could flourish in a culture that is commonly thought anti traditional and especially hostile to the middle ages Professor JONATHAN BOULTON University of Notre Dame This is the first comprehensive study to set the British orders of knighthood properly into the context of the honours system by analysing their political social and cultural functions from the Restoration of the monarchy to the end of George II's reign It examines the revival of the Order of the Garter and the proposals to establish the Orders of the Royal Oak and the Esquires of the Martyred King at the Restoration the foundation 1687 and the revival 1703 4 of the Order of the Thistle as well as the foundation of the Order of the Bath 1725 It establishes just how central a part the orders played in the British high political life and its comprehensive and multidimensional approach carefully contrasts the idealistic discourse of virtue and honour to the real workings of the honours system it also makes the case for the Chivalric Enlightenment The orders over the water the Garter and the Thistle conferred by the Jacobite claimants are discussed for the first time in the context of the established British honours system Overall the comparison between the socially very restricted British and the increasingly meritocratic Continental orders highlights the isolation of the British honours system from the European tendencies **The Canadian**

Honours System Christopher McCreery, 2015-11-28 This updated full colour illustrated book recounts the history of Canada's various national orders, decorations and medals. This expanded and updated edition of *The Canadian Honours System* surveys the history of Canada's various orders, decorations and medals from New France's Croix de St Louis, Britain's the Order of the Bath to modern Canadian honours such as the Sacrifice Medal and recently created Polar Medal. Since the establishment of the Order of Canada in 1967, the Canadian honours system has grown to become one of the most comprehensive in the world with more than 300,000 Canadians having been rewarded over the past fifty years. Each honour in the modern Canadian honours system and its precursor the British imperial honours system is examined here in detail including historical background, design and criteria for bestowal. With special chapters on heraldry, protocol and the proper mounting and wearing of medals, *The Canadian Honours System* is an essential reference for anyone interested in Canadian honours.

From Servants of the Empire to Everyday Heroes Tobias Harper, 2020 A history of the British Crown honours system in the 20th century showing its evolution through a period of democratisation and decolonisation. Tobias Harper examines how governments used the honours system to shape ideologies of loyalty and service while dissidents turned the symbolism of honours against the Crown.

From Servants of the Empire to Everyday Heroes Tobias Harper, 2020-02-13 In the twentieth century the British Crown appointed around a hundred thousand people, military and civilian in Britain and the British Empire to honours and titles. For outsiders and sometimes recipients too, these jumbles of letters are tantalizingly confusing: OM, MBE, GCVO, CH, KB or CBE. Throughout the century this system expanded to include different kinds of people while also shrinking in its imperial scope with the declining empire. Through these dual processes this profoundly hierarchical system underwent a seemingly counter-intuitive change: it democratized. Why and how did the British government change this system? And how did its various publics respond to it? This study addresses these questions directly by looking at the history of the honours system in the wider context of the major historical changes in Britain and the British Empire in the twentieth century. In particular, it looks at the evolution of this hierarchical deferential system amidst democratization and decolonization. It focuses on the system's largest and most important components: the Order of the British Empire, the Knight Bachelor and the lower ranks of other Orders. By creatively analysing the politics and administration of the system alongside popular responses to it in diaries, letters, newspapers and memoirs, Tobias Harper shows the many different meanings that honours took on for the establishment, dissidents and recipients. He also shows the ways in which the system succeeded and failed to order and bring together divided societies.
