The Making Of A Radical:

The Making of a Radical Scott Nearing, 1976 *The Making of a Radical* Scott Nearing, 1976 Transatlantic Radicals and the Early American Republic Michael Durey, 1997 In the transatlantic world of the late eighteenth century easterly winds blew radical thought to America Thomas Paine had already arrived on these shores in 1774 and made his mark as a radical pamphleteer during the Revolution In his wake followed more than 200 other radical exiles English Dissenters Whigs and Painites Scottish lads o parts and Irish patriots who became influential newspaper writers and editors and helped change the nature of political discourse in a young nation Michael Durey has written the first full scale analysis of these radicals evaluating the long term influence their ideas have had on American political thought *Transatlantic Radicals* uncovers the roots of their radicalism in the Old World and tells the story of how these men came to be exiled how they emigrated and how they participated in the politics of their adopted country Nearly all of these radicals looked to Paine as their spiritual leader and to Thomas Jefferson as their political champion They held egalitarian anti federalist values and promoted an extreme form of participatory democracy that found a niche in the radical wing of Jefferson s Republican Party Their divided views on slavery however reveal that democratic republicanism was unable to cope with the realities of that institution As political activists during the 1790s they proved crucial to Jefferson s 1800 presidential victory then after his views moderated and their influence waned many repatriated others drifted into anonymity and a few managed to find success in the New World Although many of these men are known to us through other histories their influence as a group has never before been so closely examined Durey persuasively demonstrates that the intellectual ferment in Britain did indeed have tremendous influence on American politics His account of that influence sheds considerable light on transatlantic political history and differences in religious political and economic freedoms Skillfully balancing a large cast of characters *Transatlantic Radicals* depicts the diversity of their experiences and shows how crucial these reluctant migr s were to shaping our republic in its formative years The Writings of William James John J. McDermott, 2013-02-06 A comprehensive collection of writings by the legendary philosopher whose sweeping body of work influenced our ideas about psychology religion free will and pragmatism In his introduction to this collection John McDermott presents James s thinking in all its manifestations stressing the importance of radical empiricism and placing into perspective the doctrines of pragmatism and the will to believe The critical periods of James s life are highlighted to illuminate the development of his philosophical and psychological thought The anthology features representative selections from *The Principles of Psychology* *The Will to Believe* and *The Variety of Religious Experience* in addition to the complete *Essays in Radical Empiricism* and *A Pluralistic Universe* The original 1907 edition of *Pragmatism* is included as well as classic selections from all of James s other major works Of particular significance for James scholarship is the supplemented version of Ralph Barton Perry s *Annotated Bibliography of the Writings of William James* **The Palgrave Handbook of the History of Surgery** Thomas Schlich, 2017-12-12 This handbook covers the

technical social and cultural history of surgery It reflects the state of the art and suggests directions for future research It discusses what is different and specific about the history of surgery a manual activity with a direct impact on the patient s body The individual entries in the handbook function as starting points for anyone who wants to obtain up to date information about an area in the history of surgery for purposes of research or for general orientation Written by 26 experts from 6 countries the chapters discuss the essential topics of the field such as anaesthesia wound infection instruments specialization specific domains areas for example cancer surgery transplants animals war but also innovative themes women popular culture nursing clinical trials and make connections to other areas of historical research such as the history of emotions art architecture colonial history Chapters 16 and 18 of this book are available open access under a CC BY 4 0 license at link springer com [Andrew Johnson, the Radicals, and the Negro, 1865-1866](#) Bernard Seymour Halperin,1966 *Young Radicals* Kenneth Keniston,1968 **The Telco Churn Management Handbook** Rob Mattison,2006-01-01 Definitive guide to customer loyalty its diagnosis management and improvement available to the telecommunications professional Industry veteran Rob Mattison shares his expertise The book explains tools and techniques for a coherent telecom business strategy It is a very readable text that communicates the core ideas effectively Highly recommended for telecom execs **The Promise of Youth Anti-Citizenship** Kevin L Clay, Kevin Lawrence Henry,2024-05-28 When inclusion into the fold of citizenship is conditioned by a social group s conceit to ritual violence humiliation and exploitation what can anti citizenship offer us The Promise of Youth Anti citizenship argues that Black youth and youth of color have been cast as anti citizens disenfranchised from the social political and economic mainstream of American life Instead of asking youth to conform to a larger societal structure undergirded by racial capitalism and antiblackness the volume s contributors propose that the collective practice of anti citizenship opens up a liberatory space for youth to challenge the social order The chapters cover an array of topics including Black youth in the charter school experiment in post Katrina New Orleans racial capitalism the queering of ethnicity and the 1980s Salvadoran migration to South Central Los Angeles the notion of decolonizing classrooms through Palestinian liberation narratives and more Through a range of methodological approaches and conceptual interventions this collection illuminates how youth negotiate and exercise anti citizenship as forms of either resistance or refusal in response to coercive patriotism cultural imperialism and predatory capitalism Contributors Karlyn Adams Wiggins Portland State U Ariana Brazier Julio Cammarota U of Arizona Michael Davis U of Wisconsin Madison Damaris C Dunn U of Georgia Diana Gamez U of California Irvine Rachel F G mez Virginia Commonwealth U Luma Hasan Gabriel Rodriguez Iowa State U Christopher R Rogers U of Pennsylvania Damien M Sojoyner U of California Irvine **Burning Man** Linda Noveroske-Tritten,2024-02-06 This book centers on a philosophical analysis of creative acts at the Burning Man Festival and their roles in wider social change With particular focus on the Ten Principles of Burning Man Linda Noveroske Tritten posits a re interpretation of common notions of self and other as they apply to identity difference and the ways that these personal

impulses ripple outward from changing individuals into changing societies Such radical re imagination of ideology can be most powerful when it occurs in spaces of otherness of heterotopia This study casts Burning Man as a heterotopia not only to destabilize what we think we know about visual art performance and creative encounters but also bring these acts into an attitude of immediacy that facilitates previously unimagined behavior and opens out artistic drive into the unknown This book would be of value for scholars and practitioners in Performance Studies Theatre and Dance Art History Psychology Phenomenology Humanities Architecture and Urban Studies
