The Man In Green:

The Chautauquan ,1894 **The Working Man's Green Space** Micheline Nilsen,Brooks M. Barnes,2014-02-21 With antecedents dating back to the Middle Ages the community garden is more popular than ever as a means of procuring the freshest food possible and instilling community cohesion But as Micheline Nilsen shows the small garden movement which gained impetus in the nineteenth century as rural workers crowded into industrial cities was for a long time primarily a repository of ideas concerning social reform hygienic improvement and class mobility Complementing efforts by worker cooperatives unions and social legislation the provision of small garden plots offered some relief from bleak urban living conditions Urban planners often thought of such gardens as a way to insert lungs into a city Standing at the intersection of a number of disciplines including landscape studies horticulture and urban history **The Working Man s Green Space** focuses on the development of allotment gardens in European countries in the nearly half century between the Franco Prussian War and World War I when the French Third Republic the German Empire and the late Victorian era in England saw the development of unprecedented measures to improve the lot of the laboring classes Nilsen shows how community gardening is inscribed within a social contract that differs from country to country but how there is also an underlying aesthetic and social significance to these gardens that transcends national borders **The exorcism of sex and death in Julien Green's novels** Nicholas Kostis,2019-03-18 No detailed description available for **The exorcism of sex and death in Julien Green s novels** *Manpower* ,1969 **Investigation Relative to Wages and Prices of Commodities** United States. Smallwood,2008-02-05 Marauding outlaws or violent rebels still bent on fighting the Civil War For decades the so called Taylor Sutton feud has been seen as a bloody vendetta between two opposing gangs of Texas gunfighters However historian James M Smallwood here shows that what seemed to be random lawlessness can be interpreted as a pattern of rebellion by a loose confederation of desperadoes who found common cause in their hatred of the Reconstruction government in Texas Between the 1850s and 1880 almost 200 men rode at one time or another with Creed Taylor and his

family through a forty five county area of Texas stealing and killing almost at will despite heated and often violent opposition from pro Union law enforcement officials often led by William Sutton From 1871 until his eventual arrest notorious outlaw John Wesley Hardin served as enforcer for the Taylors In 1874 in the streets of Comanche Texas on his twenty first birthday Hardin and two other members of the Taylor ring gunned down Brown County Deputy Charlie Webb This cold blooded killing one among many marked the beginning of the end for the Taylor ring and Hardin eventually went to the penitentiary as a result The Feud That Wasn t reinforces the interpretation that Reconstruction was actually just a continuation of the Civil War in another guise a thesis Smallwood has advanced in other books and articles He chronicles in vivid detail the cattle rustling horse thieving killing sprees and attacks on law officials perpetrated by the loosely knit Taylor ring drawing a composite picture of a group of anti Reconstruction hoodlums who at various times banded together for criminal purposes Western historians and those interested in gunfighters and lawmen will heartily enjoy this colorful and meticulously researched narrative
