The Problems Of Religious Faith:

The Problems of Religious Faith James Patrick Mackey, 1972 [The Problems of Religious Faith](#) James P. Mackey, 1972-01-01 **Problems of Religious Diversity** Paul J. Griffiths, 2001-06-29 Exploring Religious Diversity analyzes the philosophical questions raised by the fact that many religions in the world often appear to contradict each other in doctrine and practice Analyzes the philosophical questions raised by the fact that many religions in the world often appear to contradict each other in doctrine and practice Evaluates the fundamental philosophical underpinnings of the debates between religious and non religious approaches to religious diversity Contains a glossary that defines the book s key technical terms and how they are related to one another [Problems of Religious Luck](#) Guy Axtell, 2020-07-07 To speak of being religious lucky certainly sounds odd But then so does My faith holds value in God s plan while yours does not This book argues that these two concerns with the concept of religious luck and with asymmetric or sharply differential ascriptions of religious value are inextricably connected It argues that religious luck attributions can profitably be studied from a number of directions not just theological but also social scientific and philosophical There is a strong tendency among adherents of different faith traditions to invoke asymmetric explanations of the religious value or salvific status of the home religion vis vis all others Attributions of good bad religious luck and exclusivist dismissal of the significance of religious disagreement are the central phenomena that the book studies Part I lays out a taxonomy of kinds of religious luck a taxonomy that draws upon but extends work on moral and epistemic luck It asks What is going on when persons theologies or purported revelations ascribe various kinds of religiously relevant traits to insiders and outsiders of a faith tradition in sharply asymmetric fashion I am saved but you are lost My religion is holy but yours is idolatrous My faith tradition is true and valued by God but yours is false and valueless Part II further develops the theory introduced in Part I pushing forward both the descriptive explanatory and normative sides of what the author terms his inductive risk account Firstly the concept of inductive risk is shown to contribute to the needed field of comparative fundamentalism by suggesting new psychological markers of fundamentalist orientation The second side of what is termed an inductive risk account is concerned with the epistemology of religious belief but more especially with an account of the limits of reasonable religious disagreement Problems of inductively risky modes of belief formation problematize claims to religion specific knowledge But the inductive risk account does not aim to set religion apart or to challenge the reasonableness of religious belief tout court Rather the burden of the argument is to challenge the reasonableness of attitudes of religious exclusivism and to demotivate the polemical apologetics that exclusivists practice and hope to normalize **American Journal of Religious Psychology and Education** Granville Stanley Hall, Alexander Francis Chamberlain, 1905 Includes section Book reviews [Challenges for Religious Education](#) Richard Pring, 2019-11-19 Major social changes especially as a result the more multicultural nature of society have raised important issues about the teaching of religion and the rational basis of different religious faiths Challenges for Religious Education addresses and

critically examines these changes and asks where religious education and Faith Schools fit within secular society and indeed whether there is still a place for them at all Analysing what religious education could look like if it were considered from a wider world views perspective that doesn't focus on a particular set of religious beliefs this book considers the reasonableness of holding a faith and therefore in teaching it the ongoing tensions between faith and reason arguments for and against the study of religious education whether modern secular thought is itself an ideology and the philosophical standpoints on the relationship between faith and reason Linking faith and reason with the issue of whether religious education is truly necessary in a modern world Challenges for Religious Education is a crucial read for anyone interested in the future of religious education teaching in a secular society **Scribner's Magazine** Edward Livermore

Burlingame, Robert Bridges, Alfred Sheppard Dashiell, Harlan Logan, 1929 **Christian Advocate**, 1923 **Beyond Our Lights and Shadows** Judith A. Merkle, 2016-07-14 Do not neglect the gift that is in you which was given to you through prophecy with the laying of hands by the council of elders 1Tim 4 14 Members of the church today can comprehend Paul's sentiment to Timothy While not all ordained all baptized Christians have experienced the laying on of hands in baptism They have been touched by that mysterious mix of charism initiated into the Body of Christ through the Holy Spirit as well as launched into life with Christ through the institution of the Church with all its concreteness ambiguity sinfulness and goodness Through the lens of Christian theology along with the sociology of Max Weber in his study of charism and institution in modern society Judith A Merkle analyzes the interaction and tautness between the concept of powerful grace through baptism and the institution in the life of the modern church Weber asserts that freedom and creativity in modern society only become manifest within social relations Since these highly valued modern experiences do not exist outside the institutional framework they exist in tension with the constrictive and creative aspects of the institution Judith A Merkle offers the reader perspective on this contemporary experience in the church **Why People Don't Believe** Paul

Chamberlain, 2011-05-01 Religion is increasingly seen as a dangerous source of violence in the world breeding a fear of faith in a very vocal group of critics Most Christians are blissfully unaware of the litany of allegations being brought against religion including that it is the cause of intolerance imperialism irrationality bigotry and war to name a few But ignorance is not the answer In *Why People Don't Believe* Paul Chamberlain strives to represent the concerns and challenges raised against religious faith particularly those raised against Christianity to help readers understand them He then thoughtfully responds to these criticisms honestly evaluating whether they have merit Lastly he outlines the many good and humane contributions Christianity has made to the world throughout the past 2 000 years Anyone who is troubled by today's headlines involving religious violence or who wants to be able to respond intelligently to critics will find *Why People Don't Believe* a welcome hopeful book *Readings in Contemporary Problems in the United States* Horace Taylor, Joseph Daniel McGoldrick, 1930 Gift of Rabbi W Gunther Plaut *The American Journal of Theology* University of Chicago.
