Translate or not to Translate That is the Question On Metaphor Translation in Chinese Political works by Dong Yu explains that in judging whether or not a Chinese metaphor can be translated into English an indispensable step is to decide whether or not the two cultural connotations can be connected But this can easily be influenced by subjective factors Yu has suggested some ways in which subjective factors could be controlled to some extent so that the translator could be more confident in his or her decision He has also suggested three steps The first step is to assume that the cultural connotation of the Chinese metaphor can be connected with that of its English version For example the metaphor in could be translated as rain or shine The second step is to find out whether or not this translated version is acceptable both linguistically and culturally in English The third step is to consider the systematicity of the metaphor in regard with the context in both the source and target texts This involves a process of recontextualization
