Dan W. Urry, 2007-10-18 In the sixth century BC Thales of Miletus father of the Ionian Enlightenment setting aside the mythic views of Homer and Hesiod asked What is the world made of and thereby became the first physicist He answered that water is the basis of all matter and thereupon became an often cited example of early Greek reasoning gone astray However not only did Thales initiate scientific inquiry but also with reference to living things he was substantially correct Living organisms are composed mostly of water but the unique role of water in living organisms has been wanting for adequate description From the perspective of D H Lawrence Water is H<sub>2</sub>O hydrogen two parts oxygen one part but there is a third thing that makes it water and nobody knows what that is From our perspective and as advanced in this volume the interaction of water with dissimilar groups comprising each protein molecule the competition for water between these disparate substituents along chain molecules of living organisms and the freedom of motion that water gives protein chains combine to provide the physical basis of Life The Divine Comedy of Dante Alighieri, and the New Life; Ed. with Introduction and Revised and Additional Notes by L. Oscar Kuhns Dante Alighieri, 1925 **Life** John Ames Mitchell, 1908

Life, 1926 **Three Faces of Power** Kenneth E. Boulding, 1989-08 Three Faces of Power offers the best of Kenneth Boulding bold innovative perspectives on past and present concepts His creative analysis lays the groundwork for important future debates about power Boulding explains that power can be divided into three major categories threat power economic power and integrative power Turning general deterrence theory on its head he argues that the greatest error is to regard threat power as fundamental for it is not effective unless it is reinforced by economic and integrative power His conclusion has wide ranging application to everything from the nuclear weapons debate to intimate personal relationships Power The word alone evokes images of great empires of human misery of personal triumphs and failures Yet power has been and continues to be one of the most misunderstood concepts known to mankind Now in a fascinating new volume Kenneth Boulding marshals his remarkable intellectual talents to explore and analyze the nature of power Three Faces of Power offers the best of Kenneth Boulding bold innovative perspectives on past and present concepts His creative analysis lays the groundwork for important future debates about power Boulding explains that power can be divided into three major categories o Threat power destructive in nature and applied particularly to political life o Economic power resting largely on the power to produce and exchange items and on the constantly changing distribution of property ownership o Integrative power based on such relationships as legitimacy respect affection love community and identity Turning general deterrence theory on its head Boulding argues that the greatest error is to regard threat power as fundamental for it is not effective

unless it is reinforced by economic and integrative power His conclusion has wide ranging application to everything from the nuclear weapons debate to intimate personal relationships Three Faces of Power provides a refreshingly optimistic and challenging call to a world future secured through the power of human interaction and knowledge It will prove essential reading for students and academics in all areas of the social sciences especially peace studies political science sociology family studies communication organizational studies social psychology and international relations With deft strokes of wit and delightfully apt analogies Boulding shares his profound insights into the most important component of human relations power its manifestations in brutal exploitation in give and take relations among equals and in mutually nurturing cooperating human beings Boulding s inimitable charm shines through the plain language of common experience on every page of this book for everyone Anatol Rapoport University of Toronto Original as always Future Survey This book is vintage Boulding Few people writing today in social science much less in economics give evidence of the broad erudition which Boulding invariably displays He chooses examples of the points he wishes to make with breathtaking leaps through history and culture The reader who dips into this book by Boulding is in for a challenging and thought provoking experience The Journal of Economic Issues Innovative and fascinating The Futurist This is an immensely charming book easily readable written in a plain almost folksy prose style It glides effortlessly over its topic Organization Studies The value of reading this book is that of personal discovery Besides the many glittering economic ideas and suggestions lying about like diamonds in a field his essay provokes self knowledge You as an economist will know a lot more about yourself and the failures and successes of your profession after reading this book American Journal of Agricultural Economics Three Faces of Power is Kenneth Boulding s innovative and thought provoking study of power in which he categorically rejects the traditional importance of threat destructive power Instead he offers a bold new thesis It is integrative power that is the most dominant and significant form of power in the sense that neither threat power nor economic power can achieve very much in the absence of legitimacy which is one of the more important aspects of integrative power Well written and provocative Three Faces of Power is both scholarly and down to earth Undeniably Three Faces of Power will stimulate much discussion about power but equally important it is an eloquent plea for peace International Journal on World Peace

Intellectual Disability and the Right to a Sexual Life Simon Foley,2017-09-11 One of the perennial political philosophical questions concerns whether it is ever justifiable for a third party to paternalistically restrict an adult s freedom to ensure their own or society s best interests are protected Wherever one stands on this debate it remains the case that unlike their non impaired contemporaries many intellectually disabled adults are subjected to a paternalistic regime of care This is particularly the case regarding members of this population exercising more control of their sexuality Utilizing rare empirical data Foucault s theory of power and Kristeva s concept of abjection this work shows that many non disabled

people including family members hold ambivalent attitudes towards people with visible disabilities expressing their sexuality Through a careful examination of the autonomy paternalism debate this is the first book to provide an original provocative and philosophically compelling analysis to argue that where necessary facilitated sex with prostitutes should be included as part of a new regime of care to ensure that sexual needs are met Intellectual Disability and the Right to a Sexual Life is essential reading for scholars students and policy makers with an interest in philosophy sociology political theory social work disability studies and sex studies It will also be of interest to anybody who is a parent or a sibling of an adult with an intellectual disability and those with an interest in human rights and disability more generally *Life Keeps Me Dancing* Eileen Kramer,2023-07-25 I am not old I have just been here for a long time Eileen Kramer has lived the most extraordinary life Born just after Australia entered World War I she embraced creativity and adventure from an early age She danced and painted murals in Karachi worked as an artist s model in Paris and London met Ella Fitzgerald and Groucho Marx and learnt the twist from Louis Armstrong In September 2013 aged 99 Eileen returned to Australia Now at 108 she is penning her memoir is as young at heart as ever and still dancing **The Works of Sir Thomas Browne: Preface.
