**Folktales of the Jews, V. 3 (Tales from Arab Lands)** Dan Ben Amos, 2011-05-01 Thanks to these generous donors for making the publication of the books in this series possible Lloyd E Cotsen The Maurice Amado Foundation National Endowment for the Humanities and the National Foundation for Jewish Culture Tales from Arab Lands presents tales from North Africa Yemen Lebanon Syria and Iraq in the latest volume of the most important collection of Jewish folktales ever published This is the third book in the multi volume series in the tradition of Louis Ginzberg s timeless classic Legends of the Jews The tales here and the others in this series have been selected from the Israel Folktale Archives IFA named in Honor of Dov Noy at The University of Haifa a treasure house of Jewish lore that has remained largely unavailable to the entire world until now Since the creation of the State of Israel the IFA has collected more than 20 000 tales from newly arrived immigrants long lost stories shared by their families from around the world The tales come from the major ethno linguistic communities of the Jewish world and are representative of a wide variety of subjects and motifs especially rich in Jewish content and context Each of the tales is accompanied by in depth commentary that explains the tale s cultural historical and literary background and its similarity to other tales in the IFA collection and extensive scholarly notes There is also an introduction that describes the culture and its folk narrative tradition a world map of the areas covered illustrations biographies of the collectors and narrators tale type and motif indexes a subject index and a comprehensive bibliography Until the establishment of the IFA we had had only limited access to the wide range of Jewish folk narratives Even in Israel the gathering place of the most wide ranging cross section of world Jewry these folktales have remained largely unknown Many of the communities no longer exist as cohesive societies in their representative lands the Holocaust migration and changes in living styles have made the continuation of these tales impossible This series is a monument to a rich but vanishing oral tradition This series is a monument to a rich but vanishing oral tradition

**Altering Party Systems**

Simon Hug,2010-05-06 New political parties have regularly appeared in developed democracies around the world In some countries issues focusing on the environment immigration economic decline and regional concerns have been brought to the forefront by new political parties In other countries these issues have been addressed by established parties and new issue driven parties have failed to form Most current research is unable to explain why under certain circumstances new issues or neglected old ones lead to the formation of new parties Based on a novel theoretical framework this study demonstrates the crucial interplay between established parties and possible newcomers to explain the emergence of new political parties Deriving stable hypotheses from a simple theoretical model the book proceeds to a study of party formation in twenty two developed democracies New or neglected issues still appear as a driving force in explaining the emergence of new parties but their effect is partially mediated by institutional factors such as access to the ballot public support for parties and the electoral system The hypotheses in part support existing theoretical work but in part present new insights The theoretical model also pinpoints problems of research design that are hardly addressed in the comparative literature on new political parties These insights from the theoretical model lead to empirical tests that improve on those employed in the literature and allow for a much enhanced understanding of the formation and the success of new parties Simon Hug is Lecturer in Political Science University of Geneva

Jelena Novak,2016-03-09 Both in opera studies and in most operatic works the singing body is often taken for granted In Postopera Reinventing the Voice Body Jelena Novak reintroduces an awareness of the physicality of the singing body to opera studies Arguing that the voice body relationship itself is a producer of meaning she furthermore posits this relationship as one of the major driving forces in recent opera She takes as her focus six contemporary operas La Belle et la B te Philip Glass Writing to Vermeer Louis Andriessen Peter Greenaway Three Tales Steve Reich Beryl Korot One Michel van der Aa Homeland Laurie Anderson and La Commedia Louis Andriessen Hal Hartley which she terms postoperas These pieces are sites for creative exploration where the boundaries of the opera world are stretched Central to this is the impact of new media a de synchronization between image and sound or a redefinition of body voice gender relationships Novak dissects the singing body as a set of rules protocols effects and strategies That dissection shows how the singing body acts within the world of opera what interventions it makes and how it constitutes opera s meanings **Jack and Three Jills** Francis

Hungerford,1896 Situating Opera Herbert Lindenberger,2010-10-28 Setting opera within a variety of contexts social aesthetic historical Lindenberger illuminates a form that has persisted in recognizable shape for over four centuries The

study examines the social entanglements of opera for example the relation of Mozart s Abduction from the Seraglio and Verdi

s Il trovatore to its initial and later audiences It shows how modernist opera rethought the nature of theatricality and often challenged its viewers by means of both musical and theatrical shock effects Using recent experiments in neuroscience the book demonstrates how different operatic forms developed at different periods to create new ways of exciting a public Lindenberger considers selected moments of operatic history from Monteverdi's Orfeo to the present to study how the form has communicated with its diverse audiences Of interest to scholars and operagoers alike this book advocates and exemplifies opera studies as an active emerging area of interdisciplinary study
