The book addresses issues that are relevant for parents, early years professionals and academics, including the role of play in learning at school, the role of adults in self-initiated play and the long-term impact of early friendships. The book makes clear how recent cultural differences involve digital engineering and imaginary peer play. The book follows a clear line of argument, highlighting the importance of play-based learning and stress the importance of further knowledge of children's interaction in their context. This book aims to highlight the narration of peer play, mostly leaning on a sociocultural theoretical perspective where many chapters have a cultural-historical theoretical frame and highlight children's social situation of development.
