Sound and Vibration**, 1974 *What's That Sound?* Kristi Nielsen, 2020-11-16 What s that Sound Animal Sounds Every child quickly learns to associate sounds with things they are familiar with as they start to learn language A two year old may frequently ask What s

that Sound when they hear something they do not recognize They are also excited about learning to mimic the sounds of things they are familiar with Repetition and mimicking is an important part of learning language A child copies the sound a bus makes or the sound of a dump truck Knowing how beneficial this process is for toddlers is the impetus for writing this book The author s 23 month old grandson asked What s that sound so many times every day a grandmother did what a grandmother does She wrote and illustrated What s that Sound Animal Sounds and What s that Sound Transportation Sounds in response to his love for learning sounds He quickly learned to make the sounds that correspond to various animals and transportation and construction equipment His environment was filled with new sounds His grandmother moved to a condo on a busy street and next door to his home a house was demolished and a new house was under construction He like most children at that stage of learning language enjoyed learning the names the thing making the sound Many times he could not see what was making the noise For this reason a book supplies an opportunity to learn the vocabulary and phonetic expressions
