Travel Destinations:

Handbook of Research on Resident and Tourist Perspectives on Travel Destinations Pinto, Patrícia, Guerreiro, Manuela, 2020-06-19 Tourism is an economic and social phenomenon that is centered on a tourist's experience and is dependent on the experiences that are co-created and provided to tourists. Tourism destination managers must understand what tourists perceive as engaging, intense, and memorable in order to remain successful. However, care must also be given to the residents' perception of local tourism development and how it impacts their community. This is a fundamental aspect for tourism development since host communities that support tourism development tend to be more hospitable with tourists, which influences their satisfaction and loyalty. Moreover, the interaction with residents of host communities is a crucial component of the quality of the tourist experience, contributing to the long-term success and sustainability of destinations. The *Handbook of Research on Resident and Tourist Perspectives on Travel Destinations* is a collection of innovative research that examines travel destinations from the resident and tourist perspectives in order to better support and inform the tourism development process and to make the destinations attractive to visitors while at the same time contributing to resident quality of life and happiness. While highlighting topics including sustainable development, hotel management, and customer satisfaction, this book is ideally designed for government officials, tour developers, travel agencies, brand managers, advertising agencies, restaurateurs, public administrators, hotel managers, tourist industry professionals, academicians, researchers, and students.

The Role of Artificial Intelligence in Regenerative Tourism and Green Destinations

Alhamzah Alnoor, Gül Erkol Bayram, Chew XinYing, Syed Haider Ali Shah, 2024-07-09 This volume takes the reader through the origins of regenerative tourism and how artificial intelligence can be utilised to develop and maintain green tourism. Chapters examine everything from marketing data, mapping, employment opportunities, cultural issues, as well as what the future holds for tourism to give back to countries.

Destination Recommendation Systems

Daniel R. Fesenmaier, Karl W. Wöber, H. Werthner, 2006 An emerging area of study within technology and tourism focuses on the development of technologies which enable Internet users to quickly and effectively find relevant information about selected topics including travel, destination, transportation, etc. This area of tourism research and development is generally referred to as destination marketing systems (DMS) and brings together both applied and academic interests ranging from marketing and management to psychology, mathematics, and computer sciences. This book provides a comprehensive synthesis of the current status of research, representing the contributions of some of the leading researchers in destination marketing systems.

Tourism Destinations,Definitions, Changes and Trends Caroline Mutuku,2017-11-30 Research Paper undergraduate from the year 2013 in the subject Tourism Miscellaneous grade 1 language English abstract The World Tourism Organization WTO sees tourism as an activity by people who travel outside of

their customary neighborhood either for leisure business or for medical purposes for a period not exceeding one year Some tourism scholars see tourism as the temporary movement of individuals away from their normal surroundings and the activities undertaken during their stay in the new destination as well as the facilities made to cater for the tourists needs Pundits estimate that about seventy percent of tourists visit the ten major tourism destinations while thirty percent share the other destinations It is therefore evident that the bulk of the revenue generated in the global travel goes to the established destinations therefore the undeveloped destinations need to undertake some strategic planning in order to attract tourists in their destinations Tourists are drawn to a certain tourism destination because of its attractiveness that reflects the feelings of the tourists regarding the destination perceived ability to meet their needs Thus the more a certain destination meets the tourist s needs the more it is seen to be attractive and consequently its popularity grows It is imperative that the sustainable tourism development concept be adopted in all tourism destinations in order to appropriately cater for the needs of the travellers and the host destinations while enhancing and protecting opportunities for the future
