Constitutional Democracy in Crisis? Mark A. Graber, Sanford Levinson, Mark Tushnet, 2018-08-23 To what extent is the world including the United States facing a serious threat to the protection of constitutional democracies This collection brings together leading scholars to engage critically with the crises facing constitutional democracies today The book is organized in four parts background and how the present situation arose a selection of specific country studies global themes and worldwide forces and conclusions from the above and hypotheses about the future Constitutions Judith Pryor, 2007-08-09 Bringing a postcolonial perspective to UK constitutional debates and including a detailed and comparative engagement with the constitutions of Britain's ex colonies this book is an original reflection upon the relationship between the written and the unwritten constitution Can a nation have an unwritten constitution While written constitutions both found and define modern nations Britain is commonly regarded as one of the very few exceptions to this rule Drawing on a range of theories concerning writing law and violence from Robert Cover to Jacques Derrida Constitutions makes a theoretical intervention into conventional constitutional analyses by problematizing the notion of a written constitution on which they are based Situated within the frame of the former British empire this book deconstructs the conventional opposition between the margins and the centre as well as between the written and unwritten by paying very close detailed attention to the constitutional texts under consideration Pryor argues that Britain's unwritten constitution and immemorial common law only take on meaning in a relation of difference with the written constitutions of its former colonies These texts in turn draw on this pre literate origin in order to legitimize themselves The unwritten constitution of Britain can therefore be located and dislocated in postcolonial written constitutions Constitutions is an excellent addition to the bookshelves of all students of the philosophy of law political theory constitutional and administrative law and jurisprudence **Prayers in Public Schools and Other Matters** United States.
