Truth Tales:

The Truth of Myth Tok Freeland Thompson, Gregory Allen Schrempp, 2020 *The Truth of Myth* is a thorough and accessible introduction to the study of myth surveying the intellectual history of the topic methods for studying myth cross culturally and emerging trends Readers will encounter insightful commentaries on such questions as What is the relation of mythology to religion To science To popular culture Did the events recounted in myths actually occur Why does the term myth have so many contradictory definitions and connotations Offering serious students with an intellectual toolkit for launching into this fascinating field the book is especially useful in conjunction with case studies of individual mythological traditions *The Gospel Truth* Paul W. Lentz (Jr), 2013-07-26 Nothing is simple for young David growing up on a farm in depression era Ty Ty Georgia Which is the greater truth that taught by his grandfather preacher in the biggest Baptist church in Athens or the simpler message from the deacon of the Gospel Truth Church in Ty Ty And how does either compare to what David experiences a little brother born profoundly retarded hypocrisy and self serving officials Klan murders and segregation of the races David s mentors an old midwife his father a favorite aunt and the deacon help him develop an understanding

Telling Stories Jacqueline Bardolph, André Viola, Jean-Pierre Durix, 2001 The present volume is a highly comprehensive assessment of the postcolonial short story since the thirty six contributions cover most geographical areas concerned Another important feature is that it deals not only with exclusive practitioners of the genre Mansfield Munro but also with well known novelists Achebe Armah Atwood Carey Rushdie so that stimulating comparisons are suggested between shorter and longer works by the same authors In addition the volume is of interest for the study of aspects of orality dialect dance rhythms circularity and trickster figure for instance and of the more or less conflictual relationships between the individual character or implied author and the community Furthermore the marginalized status of women emerges as another major theme both as regards the past for white women settlers or the present for urbanized characters primarily in Africa and India The reader will also have the rare pleasure of discovering Janice Kulik Keefer s Fox her version of what she calls in her commentary displaced autobiography or creative non fiction Lastly an extensive bibliography on the postcolonial short story opens up further possibilities for research **A Poet's Truth** Bruce Allen Dick, 2022-02-22 Among students and aficionados of contemporary literature the work of Latina and Latino poets holds a particular fascination Through works imbued with fire and passion these writers have kindled new enthusiasm in their compatriots and admiration in non Latino readers This book brings together recent interviews with fifteen Latino a poets a cross section of Chicano Puerto Rican and Cuban voices who discuss not only their work but also related issues that help define their place in American literature Each talks at length about the craft of his or her poetry both the influences and the process behind it and takes a stand on social and political issues affecting Latinos across the United States The interviews feature both established writers published as early as the 1960s and emerging artists each of whom has enjoyed success in other literary forms also As Bruce Dick s insightful

questions reveal the key threads linking these writers are their connections to their families and communities and their concern for civil rights believing like Chicana writer Pat Mora that the work of the poet is for the people The interviews also reveal diversity among and within the three communities from Victor Hernandez Cruz who traces Latino collective identity to Africa and claims that all Latinos are swimming in olive oil to Cuban writer Gustavo Perez Firmat who considers nationality more important than ethnicity and says that the term Latino erases his nationality The dialogues also offer new insights on the place of Chicano writings in the U S Mexico borderlands on the Puerto Rican Nuyorican establishment and on the anti Castro stand of Cuban born poets As these writers answer questions about their work background ethnic identity and political ideology they provide a wealth of biographical intellectual and literary material collected here for the first time A Poet's Truth is a provocative and revealing book that not only conveys the fire of these writers passions but also sheds important light on a whole literary movement Interviews with Miguel Algarín Martín Espada Sandra María Esteves Victor Hernandez Cruz Carolina Hospital and Carlos Medina Demetria Martínez Pat Mora Judith Ortiz Cofer Ricardo Pau Llosa Gustavo Pérez Firmat Leroy Quintana Aleida Rodríguez Luis Rodríguez Benjamin Alire Sáenz Virgil Suárez
