Unitive Spirituality:

A Unitive Spirituality Stephen Arthur Murphy, 2012-06-06 A Unitive Spirituality explains an all inclusive way to the realization of peace joy and love Many people today have their own idea of what is true to the exclusion of any other possible thoughts If we look at the common threads which link us all together instead of the differences we create a unitive approach to life which can be a revelation for you This is another way to look at life not The Way When we consider other possibilities for the way things are we open our minds and we may see with a greater clarity than before *Faith's Journey* Fr. Doug Lorig, 2017 Faith's Journey is the story of the life of Fr Doug Lorig his discovery and love of the priesthood in the Catholic Church and his understanding of mysteries of Theosis **Mortal Spirit** Brian Gleason, 2001-11 Mortal Spirit takes us on a compelling journey from naivete to wisdom from instinct to heightened consciousness In an age dominated by psychopharmacological and solution focused treatments for human discontents many of us have turned to spiritual teachings for succor Yet here too we often do not find the answers we desire Human development and spiritual evolution are part of a continuum of self transcendence Mortal Spirit is the recognition of our ever evolving nature The power of Brian Gleason's message is in his willingness to challenge the sacred cows of both psychology and spirituality Gleason cogently argues that until we accept the biological realities of our beingness we will forever flounder in a fantasy world of hoped for immortality To be fully alive in this very moment is the highest spiritual challenge We cannot get there through traditional psychotherapy or classical spiritual practices alone Gleason's elegant work opens us to a new paradigm called spiritual somatics Here we learn that the human energy field must embrace all the potent forces of the universe in a developmentally appropriate sequence Both pleasure and pain must be fully experienced on this path The capacity to tolerate strong emotions is fundamental to self transcendence Spiritual somatic theory suggests that body and spirit must develop in harmony for personal evolution to unfold **Learning Compassion** Jacquelyn Ane Rinaldi, Clifford Mayes, 2022-10-25 This book discusses the relationship between compassion and peace with a special emphasis on the role that therapy and education can play in promoting a state of affairs in which as humanity becomes more compassionate peace becomes more possible Seven Curricular Landscapes Clifford Mayes, 2003 Seven Curricular Landscapes offers a holistic presentation and critique of what the author considers to be the seven major types of curricula This book which is suitable for both upper division and graduate education courses differs from previous holistic approaches in that it closely considers the holistic implications of postmodernism adds new categories and terms to the holistic repertoire includes the latest developments in transpersonal theory examines the Existentialist curriculum as a spiritual phenomenon and discusses the curricular implications of both Eastern and Western spirituality **The Good Wine** Bruno Barnhart, 2008-12-02 The Good Wine is an exciting and challenging overview of the gospel of John Bruno Barnhart has created a mystical roadmap of the biblical book which is often considered the most difficult and theological of the four gospels Following the lead of Peter Ellis Barnhart has

organized the whole of John's gospel around a single truth that God poured divine reality into humankind through the person of Jesus Christ. This belief stands at the center of the gospel and every episode in the narrative refracts the light of that core affirmation. The gospel when interpreted this way assumes a mandalic pattern in which all parts are related to the center and through it to each other. The mandalic pattern is also a gate of entry for believers who seek to relate their own destinies to the Source of Life. This book differs from other treatments of John's gospel in that its method is sapiential following the wisdom tradition of the church fathers. It explores the symbolic significance of the gospel and pays attention to chiasmic textures which establish patterned repetitive relationships between narrative episodes. The result is a deeply spiritual work that explodes with flashes of illumination for persons who come to the gospel jaded with traditional scholarship.

He writes with his usual keen insight and broad ecumenical sympathy and in a style which is readily accessible to the general reader. This study like all his previous writings is underpinned by careful scholarship. Yet he is never a mere theorist but always concerned to relate his study to the life of faith and the challenge of contemporary discipleship. Those who have appreciated his earlier studies in Puritan, Wesleyan and Catholic spirituality will relish this final offering of a writer who rooted in Methodist piety was also a choice example of John Wesley's Catholic Spirit.
