What if you found out that you re not who you believe you are What if I told you that you re not who your family thinks you are What if you re not the person that people around you see and hear What if the human being is in reality the fusing element of two worlds physical and spiritual What if in the human body you can find both physical and spiritual where the spiritual manifests physically What if what we call the mind as we know it is actually the gate through which the two worlds meet cross and exchange information What You are as a spiritual being can t be described in any human language What You are can t be seen by any human eyes What You say can t be heard by any physical ears You are the awareness in you the consciousness You are the love the joy and the happiness that bursts out of you You are the creator of your body and the creator of Your Own Universe You are limitless You are wealth You are health You are all these things combined and more You are something that can only be felt through your physical body and you will feel You long before you finish reading this book This book is not religious It doesn t aim to favour one religion or discredit another If anything it s a tool for any religion that s been created from the beginning of humanity and helps explain phenomena that couldn t have been explained otherwise It supports science equally however it doesn t just support theories that are based purely on physical evidence though it may provide answers where these haven t been found yet if one is open to accepting a different point of view It was written to serve as a manual for life explaining how things become what they are and providing confidence and strength to teens getting ready to face the world on their own and to adults who feel lost without a purpose and in need of guidance toward a happy life

[The Solution](#) Steven Redhead,2016-09-05 Are you living the life that you always imagined the life that you really desire Can you realize your dreams or are they gradually slipping away from you Life is indeed a wondrous journey but modern living has caused many to loose their way drifting far from their intended life Start to create the life you live as it was originally intended to be lived free of the chains created by modern society a life built upon joy and bliss Stop surrendering the decisions controlling your life by allowing others to interfere with your future you have the right to make all the choices

concerning how you experience your life Start living the life that you deserve by taking back control over your destiny Direct your desires towards creating a life that you truly deserve realizing your dreams creating the things that you want gaining the know how into what life is really all about When planning a holiday most people take care of all the details in advance booking flights arranging transport hotel accommodation tour guides et cetera Yet in life the greatest journey that everyone will ever make most people don't prepare or plan their life course as well as they should they don't work to create a life of joy peace health and wealth Develop the seeds for thought that will be the basis to create a new and richer life for yourself Richness is not financial but rather a life of bliss something money can't buy Take care of every detail of your life leaving no stone unturned never just scratch the surface of anything you undertake do it fully until it is entirely completed this is the only way to avoid regrets Life was never meant to be difficult it was meant to be a wondrous adventure that ideal is traded for whatever exists because of complacency when whatever occurs is accepted uncompromisingly For many the status quo is far more acceptable than taking the supposed risks of change You can't change anything that has gone by but living life to its full extent and purposes is truly a joy to carry with you forever The things that really matter must be clearly identified you do the have an influence upon determining them Each of us are creators with the potential to achieve even the wildest dreams if the necessary effort is simply put into achieving or obtaining the things desired Consider the directions to take to begin the journey back to your true life path The purpose and meaning of your life are to give purpose and meaning to life to find out not only who you are but also who you have the potential to be then pursue that goal Open your mind to the infinite possibilities that do exist for you Born through your dreams then crystallized into form by your desires given impetus by your expectations then made real through your beliefs Life is made up of chances to make choices decisions what you wish to do the accumulated result of those choices is what is called your life The purpose and meaning of your life is to give purpose and meaning to life to find out not only who you are but also who you have potential to be then pursue that goal Open your mind to the infinite possibilities that do exist for you Born through your dreams then crystallised into form by your desires given impetus by your expectations then made real though your beliefs Life is made up of chances to make choices decisions what we wish to do the accumulated result of those choices is what we call our life
