are in the sky they tend to stay home Part of the problem in Fallujah and other trouble spots in Iraq is the bad guys can operate with virtual impunity unless the Spectre is in their area There simply are not enough Spectres to cover all the hot spots in Iraq The Air Force must take the capability of the gunship flatten it out to provide greater coverage and add monitoring and recording capability Communications gear capable of working with the entire spectrum of operators on the ground and various command and control entities is a must The goal should be a smaller less expensive airframe s and more of them
