Hogan, 2015-05-07 From the inception of the science fiction film writers directors producers and actors have understood that the genre lends itself to a level of social commentary not available in other formats Viewers find it easier to accept explorations of such issues as domestic violence war xenophobia faith identity racism and other difficult topics when the protagonists exist in future times or other worlds that are only vaguely similar to our own The 22 original essays in this collection examine how the issues in particular science fiction films from 1930 s High Treason to 1999 s The Iron Giant reflect and comment on the prevailing issues of their time The 16 writers including such noted contributors as Ted Okuda Gary Don Rhodes Bryan Senn John Soister and Ken Weiss provide insight on how the genre s wistful daydreaming forthcoming wonders and nightmarish scenarios are often grounded in the grimmer realities of the human condition Films covered include It Came from Outer Space Godzilla The 27th Day Alien and Starship Troopers plus television s The Adventures of Superman the Flash Gordon serials and vintage space cartoons by Fleischer *Keep Watching the Skies!* Bill Warren, 2009-11-30 Bill Warren s *Keep Watching the Skies* was originally published in two volumes in 1982 and 1986 It was then greatly expanded in what we called the 21st Century Edition with new entries on several films and revisions and expansions of the commentary on every film In addition to a detailed plot synopsis full cast and credit listings and an overview of the critical reception of each film Warren delivers richly informative assessments of the films and a wealth of insights and anecdotes about their making The book contains 273 photographs many rare 35 in color has seven useful appendices and concludes with an enormous index This book is also available in softcover format ISBN 978 1 4766 6618 1 **It Came from 1957** Rob Craig, 2013-10-09 America in the 1950s was a cauldron of
