HOW COPS DIE Jody Kasper, 2012-08-01 The purpose of this unique book is to provide police officers and administrators with a simple and effective handbook to improve the safety of police employees. It is research based and uses the most up to date statistics from the Department of Justice, the National Law Enforcement Officers Memorial Fund and the Uniform Crime Report. The first chapter of this book contains a complete list of actual cases of officer deaths during 2010. This list provides an overview of how officers are dying in the line of duty. After a problem is identified and discussed in one chapter, the next chapter details strategies that can be implemented to reduce injury and death by employees. Additional topics include specific problems including traffic fatalities, assaults on officers, police homicides, physical health, psychological health, moonlighting, shift work, substance abuse, heart disease, nutrition, suicide, and family issues. The importance of comprehensive wellness programs and the interconnectedness of employee morale with health and safety are examined. This book has detailed the true causes of job related police officer injury and death. It has also identified effective strategies that police personnel at all levels can do to prevent these tragedies from continuing to occur. These recommended strategies will prove useful for officers and administrators alike.

The theory PTSD and Depression are the leading denominators in police corruption. This book is a poignant look into the mental health issues and real time corruption cases that follow officers across the United States.
