Sleeping Life:

The Sleeping Life Andrea K Höst, 2016-02-06 Fallon DeVries has a sister who lives only in his mind Paying the price of magic gone wrong Aurienne is trapped watching a world she cannot touch only able to communicate with her brother while he sleeps And it s slowly killing him Fallon and Auri s best chance of untangling their lives is to win the help of a mage of unparalleled ability But how can they ask for help when the warped spell prevents him from speaking Besides Rennyn Claire once the most powerful mage in the world is a shadow of her former self ill injured and unlikely to recover unless she can hunt down the monster who once tried to make her his slave But that Wicked Uncle is nowhere to be found and other dangers once slumbering dormant are stirring

Vital Strife Benjamin C. Parris, 2022-08-15 Vital Strife examines the close yet puzzling relationship between sleep and ethical care in early modernity The plays poems and philosophical essays at the heart of this book by Jasper Heywood William Shakespeare Edmund Spenser John Milton and Margaret Cavendish explore the unconscious motions of corporeal life and the drowsy forms of sentience at the boundaries of human thought and intentionality Benjamin Parris shows how these writers although trained under the Renaissance humanist paradigm of attentive care begin to dissolve the humanist coupling of virtue with vigilance by giving credence to the vital power of sleep In contrast to humanist thinkers who equated sleep with carelessness these writers draw on the ancient Stoic principle of oikei sis the process of orienting the living being toward its proper objects of care beginning with itself in asserting the value of sleep while underscoring insomnia s threat to the ethical flourishing of persons and polity alike Parris offers an important reevaluation of Stoic philosophy which has too often been misconstrued as renouncing feeling and sympathetic connection with others With its striking new account of the reception of Stoicism and attitudes toward sleep and sleeplessness in early modern thought Vital Strife reveals the period s mounting concern with the regenerative nature of physical life and its elaboration of a newfound ethics of care
